

Night Sky Consulting - Contract Communication Services Let's connect the dots!

Night Sky Consulting provides flexible, contract communication services designed to support businesses and non-profit organizations.

What we can do for you:

Not every organization or business can afford to hire a communications coordinator and it's often left for people who may not have the time or the experience to take on this task.

For this reason, developing successful communication tools is often daunting and time-consuming, but we make it easier by providing services on a contract basis.

Night Sky Consulting will work with your team to gather all relevant information and dig into what makes your organization or project unique. Using focused, yet creative methods to gather relevant information, we can develop the communication tools your organization needs.

Our communication services include:

- Specialized communication tools (i.e. newsletters, flyers, posters)
- Website content development and maintenance (including WordPress and other platforms)
- Grant & proposal-writing
- Speech-writing assistance
- Proofreading and report-writing
- Customer feedback surveys and analysis
- Change management communication plans
- Development of Board of Director manuals (i.e. policies, procedures & job descriptions)

Night Sky Consulting has a unique foundation of experiences that sets its services apart:

- Flexibility in approach and timelines
- Work rooted in practicality
- Grassroots experience in social enterprise
- Well-rounded approach to communications
- Experience in the creative arts and faith-based organizations

We offer monthly packages, as well as project-based pricing, depending on the needs of your organization. We can set up a free consultation to discuss which services would be right for you.

Night Sky Consulting is led by Monica Schroeder, an experienced communicator with a passion for creating a way forward. Whether it's working with non-profit organizations or small businesses, Monica is skilled at highlighting what's important and finding the right words to make your organization stand out.
