## Providing Cleaning Solutions to Central London

## What's important to you, is important to us.

With meticulous attention to detail and proactive care, we ensure welcoming and well-maintained environments. Our customised client portal streamlines preventative maintenance reporting for seamless management for your property.

## What sets us apart?

Communication is key to any business relationship. Through the assignment of a Contracts Manager and access to our 24/7 Client Portal we provide a consistent, transparent and reactive service.

We only clean, not cut corners. All our staff are employed, trained and arrive in company uniform clearly identifying them as a Marigolds Services employee.

Pricing and costs for cleaning and maintaining your property should be transparent and provide value. We charge a fixed fee per annum based on the services you require and this is invoiced monthly.
