

Our Mission

Our program's mission is to provide high-quality early childhood education to children within our community. Working with young children is a rewarding and challenging opportunity. We take pride in educating in helping children succeed in life because they are our future.

Penny Lane childcare recruits qualified teachers who collaborate to establish goals that meet the individual needs of all children. Professional development is encouraged to maintain quality care and accreditation. Our teachers strive to grow professionally and academically to educate others.

Early learning takes place in an inclusive environment that is healthy, safe, and designed to exercise all domains of development. Our program presents a competent, developmentally appropriate curriculum that is child-initiated and incorporates culturally diverse elements. We thrive on family involvement and community resources as they are the foundation of an effective early childhood education.

Program Philosophy and Goals

Penny Lane aims to provide the community with a high-quality preschool and childcare that is state-licensed and accredited by valued organizations. Our inclusive program accepts children from 6-weeks of age to 10-years-old. We address the special needs and interests of all children, including those with disabilities. Each child actively plays a role in a developmentally- appropriate environment occupied with safe materials and equipment. We utilize Creative Curriculum in our program and incorporate Indiana's Early Learning Foundations, which addresses eight domains of development. Penny Lane's team of professionals promotes positive interaction and redirection with all individuals. As a private not-for-profit organization, we strive to give the community a conservative childcare program that maintains its excellence.
