

Memorandum

To: All Service Providers

From: Heather Diaz, Director of Community Services

Date: September 14, 2021

Subject: Recent Public Health Order

The past 18 months have been difficult for everyone due to the pandemic. We appreciate all the work you are doing to provide quality services while ensuring the health and safety of our clients and your staff. Thank you.

As you may be aware, the Department of Public Health issued an order related to vaccinations on August 12, 2021 (see attached). This order specifically mandates all agencies that provide direct services to clients to verify that their staff have been fully vaccinated by September 30, 2021.

If you have any questions related to the applicability of this order to your agency, Harbor Regional Center is encouraging you to reach out to your legal counsel. Service providers can also contact the Los Angeles County Department of Public Health for any further questions.

Again, thank you for your services to HRC's clients.
