Motion for Discovery

Summary:

Defendant was charged with crimes in initial complaint and plea deal.

We will cite those charges at the end of this motion.

Defendant sent a link accessible as an icloud link for discovery requested by the Prosecution. Defendants icloud link has expired and prosecutor does not have access to the Client file book of the Defendant.

Prosecution is requesting the court grant full discovery to prosecution of defendants client file book.

All records should be placed in a zip file. All electronic records can easily be placed in a spreadsheet or pdf file. This will guarantee prosecution has access to all files needed for the trial.

Discovery documents should be from 11-1- 2021 till 8-24-2024.

Prohibition rom Witness Tampering

The Prosecution requests that defendant be barred from contacting former clients in client file book in order that witnesses are not tampered with in any form.

Conclusion. Defendant should be ordered to provide discovery to prosecution as soon as the court can order this action so that Prosecution can prepare its case against defendant.
