### **Trazelle Violation of Court Orders and Lying At The Time To K'in Client**

Shadi told me in February 2022 on the phone With Minister Ansâr on the phone that Chief Exec told him (Shadi) I was clear to operate Jurist Services during case 2.

The text was me asking again later on the next month to clarify on who at the time was a non Jurist in the Society [REDACTED] wanting to make sure I could still do some IDs for him...

That Text from [REDACTED] is confirming I could still operate as a Jurist on March 19th 2022... AND the case was originally told to us to be PRIVATE

The DM is a client that told me Jurist

Trezell told him I was not a Jurist still... KNOWING i still was a jurist at the time in order to try to grab some more money from my client

He also was talking PUBLICLY about a PRIVATE case...in Violation of Court Orders.

Evidence Attached.

### **Arkan Stealing Money From K'in For Client Work He Lied About and Did Not Do**

During the time of 2020 to 2021 Arkan had continuously mentioned he wanted to work with me on Debt Discharge Clients and said I should "stop being stingy" on not collaborating with him for clients I had.

Once I said okay and started working with him, I taught him the processes of what I do much of which he was not familiar with at the time. He said he would handle a particular client for me which I believe was around \$500 at the time.

When a few months went by and I didn't see any work on the clients account, I reached out to Arkan about the client, he tried to lie and say he wasn't supposed to work on the clients account but instead mentor me...

The only issue was he was bragging about doing my clients work to Kojo at the time who was a witness.

After the discrepancy we all agreed to have an official mediation to determine if the money was owed, and it was settled Arkan actually owed me the money back on record.

After that he still refused to pay it back. [REDACTED] also gave me his word he would help with getting the money back but later I heard nothing back from him on it either.

I have audio from th Mediation

K'in and Arkan Case.aifc

If there is any further evidence or details needed please let me know, thanks.

Oh okay, this is evidence I have made to the public before but okay I got you.

My response to them simply declining, and then that declining being the NJS officially saying they will stay on in the case is...Yes of course they would say they want to stay on the case...

Especially if I have evidence of them committing wrong doings and stealing against me.

My position is the moment there are claims like this it should be investigated and discussed among the other members of NJS not just them simply nit wanting to and stating that they will still be on...

But okay, I'll send evidence appreciate it being considered

Yes, you requested them to be removed, they have initially declined. Further discussions will be had on who should stay on the case pursuant to your objections.

Plaintiffs did not need to be tagged in that email, this a personal and individual issue you are raising. They received the orders issued on the pleadings.

You have provided no evidence to prejudice in this case's filings, only hearsay statements. If you have documents of evidence that would tend to prove your claims, then those would be appropriate to submit.

So the question I have is, was the fact that they 'disagreed' with being removed from the case the only thing that stipulated the decision to keep them on earlier?

Or was there an official ruling by other members of the NJS members/judges?

Also is there more evidence that is needed from me that I mentioned before for the determination to be clear whether they should both be on or not?

Lastly Keishia wasn't added in your last email, just a heads up.

The Court will consider this your objection to the order.

The NJS Members/Judges identities are public information.

The 2 Judges in question initially disagreed with being removed from this case.

The Court will consider your objection and make a ruling on it before your deadline to show just cause.

Okay I'll be withdrawing my counterclaim right now.  
I'll be sending a motion for that for the record.

My next question is, what judge or counsels are presiding in this case?

And who made the decision to keep Arkan and Trazelle on this case vs if there was a certain number of people JS wanted ruling on this one case, why not replace them and add on Nationals in the Tribe like jury duty if it is on record that both of these people have committed violations against the Defendant.

One had an official local jurisdiction mediation case of him violating the defendant in Hawab DFW that he also attended and participated in (Arkan) and the other was caught red handed violating court orders and Defendant in Case 2...

Or am I simply participating in what's defined as a Kangaroo Court?

If I could get answers to these that would be great. You'll get the response motion early.

Thanks,

Hey, it's not that deep I don't have a problem rescheduling but I initially said Friday works on March 5th immediately after our email correspondence.

So it wasn't that last minute of a notification. Let me know what day works then if that works for NJS and let's schedule for then. It may work out a little better for everyone.

I do not have everyone in place for a hearing today. I asked for this to be done with proper notification so that I could have my family available. So now I'm supposed to rush all these people because the defendant now has time to say he has time but, where was that energy before. THE BURNETT FAMILY WILL NEED PROPER NOTICE FOR A HEARING. Thanks.
