

Life is in
the blood

✦ You are what you eat

✦ Life is in the blood

✦ Blood is built by the nutrition from food

✦ if you are what you eat

✦ then the quality of blood does
matter

✦ because the blood carries the nutrition
to every cell in the body

★ "Large clinical trials have repeatedly found that multivitamins don't improve the health of the average person"

<https://www.consumerreports.org/cro/magazine/2012/09/10-surprising-dangers-of-vitamins-and-supplements/index.htm>

★ Vitamins have not improved health

★ Degenerative illness still thrives

★ "An increased risk of developing prostate cancer was observed in men who took vitamin E supplements"

<https://www.foxnews.com/health/dr-manny-are-your-dietary-supplements-killing-you>

★ "men that took multivitamins were twice as likely to die from prostate cancer compared to those who didn't"

<https://www.bbc.com/future/article/20161208-why-vitamin-supplements-could-kill-you>

✦ Vitamins were created to provide what our foods were missing

✦ But our body (liver) does NOT understand simple compounds, supplements, antioxidants, vitamins, minerals, etc.

Fox news

"Researchers analyzed 20 years of published studies . . . over 300,000 patients who . . . took either a dietary supplement or a placebo and concluded that taking more than the recommended amount of beta-carotene, known for improving immunity and protecting vision, increased the risk for lung cancer and heart disease by nearly **20 percent**"

American Association for Cancer Research (AACR) found that:
"taking more than the daily recommended allowance of certain supplements like folic acid, vitamin E and beta-carotene may actually increase your risk for the deadly disease"

"**New York State Attorney General's office** . . . settles a dispute with GNC stores for carrying herbal supplements that were falsely labeled, claiming they contained plant materials that were not detected in DNA testing"

BBC news

- ✦ "found in postmenopausal women in the U.S. After 10 years of taking folic acid (a variety of B vitamin) every day their risk of breast cancer increased by **20%** relative to those women who didn't take the supplement"
- ✦ "One study of more than 1,000 heavy smokers published in 1996 had to be terminated nearly two years early. After just four years of beta-carotene and vitamin A supplementation, there was a **28%** increase in lung cancer rates and a **17%** increase in those who died"
- ✦ "A study published in 2007 from the **US National Cancer Institute**, for instance, found that men that took multivitamins were twice as likely to die from prostate cancer compared to those who didn't. And in 2011, a similar study on 35,533 healthy men found that vitamin E and selenium supplementation increased prostate cancer by **17%**"

Consumer Report Magazine

✦ "... seven reports of serious health problems regarding consumers who took Soladek vitamin solution, marketed by Indo Pharma of the Dominican Republic. When the **FDA** learned that tested samples contained vitamins A and D at concentrations many times the recommended daily allowances, it issued a consumer warning"

✦ "Of the 233 labels we examined, most included only general warnings But specific warnings were rarer. **Forty percent** of labels warned people against taking the supplement if they had a medical condition, but only some cited an ailment, such as a bleeding disorder; **36 percent** warned of possible adverse reactions; but only **13 percent** warned of possible interactions with a specific drug or type of drug"

✦ "... issue of the **Journal of the National Cancer Institute**. Based on current evidence, vitamins C and E haven't been found to shield people from cancer; vitamin E, beta-carotene, and vitamin C don't seem to protect against getting or dying from cancer"

The reason why this is so shocking ... is because the organs, vascular system, and blood understand food and do NOT understand vitamins, minerals, supplements etc. i.e. Remedy Driven Products that were made by men to make money.

All of these substances can be found from food in its organic state which the body CAN understand and utilize!

iHeRQles

✦ Our Ingredients are
the top parts of
Organic foods

✦ Blood only
recognizes
food-like substances

✦ We have a Loading Phase

✦ During which the blood gets influenced

✦ Red Blood Cells have a 4 month life cycle, therefore we spray 4 sprays 3 times a day for the first 4 months to influence all the new red blood cells.

✦ The brain signals the immune system when it detects better blood from better food - then the immune system can grab the fast aging cells and replace them with your own self stem cells! ✦

✦ The body can't build blood with what it can't understand.

✦ When the immune system can see and remove
the fast aging cells...

✦ they are replaced
by our own self stem cells
which are like baby cells
with long telomeres...then...
