

Winthrop Sports Boosters

Team Funding Request Guidelines

Regular Season:

Team funding requests can be made for items that stay with the team. Personalized items or items that will remain with the individual players will not be funded. Regular season transportation will not be covered for players or coaches. Gifts will not be funded. Donations to special causes will be considered by the Boosters Board individually and not through team funding requests. Each request submitted will be considered on an individual basis.

Team funding requests must be made on the "Winthrop Sports Boosters Funding Request Form" and submitted to and approved by the Athletic Director prior to being ordered. Once approved by the Athletic Director it will be forwarded to the Booster Board for consideration. Items that are funded through the approved district budget will not be considered.

Team funding requests made during the regular season will be considered on a first come first serve basis. Frequency of requests made by a team will be taken into consideration only if multiple teams are requesting and funding for that season is near depletion.

Funding for the 2023-2024 seasons are as follows:

Fall:	\$2,000
Winter:	\$2,000
Spring:	\$2,000

States:

If an in house team makes it to the state tournament, the Boosters will automatically (no funding request needed) provide ONE of the following options:

- 1) Coach Bus: If the tournament is an hour drive or more from Winthrop, then the Boosters will fund the upgrade cost for the team to be transported on a coach bus.

OR

- 2) Team Dinner: If the tournament is local, then the Boosters will deposit into the team account \$20 per athlete for the athletes and coaches listed on the official team roster. The coach or team liaison will be notified when the money is deposited into the team account.

Approved: December 3, 2021
