

PROTOCOL FOR MUSIC AT THE WINTHROP ATHLETIC COMPLEX

The following protocols **must** be followed in order to use the sound system:

1. **Pre-approved Music Only:**

All music to be played at the complex must be compiled into a playlist and reviewed in advance by coaching staff. Only songs that are approved by the coaches and submitted to me will be permitted. If any music outside the approved list is played, the privilege will be revoked immediately.

2. **Supervised Operation:**

Music may only be played if an assistant coach or approved volunteer is present to operate and monitor the sound system, ensuring only approved music is played. If such a person is not present, the sound system is not to be used.

3. **Restricted Hours of Use:**

Music may not be played before 3:15 PM on weekdays (Monday–Friday), or before 9:00 AM on Saturdays and Sundays.

4. **Special Events (e.g., Parade):**

If music is planned for events such as a parade, the same approval and supervision protocols outlined above must be followed without exception.

This is **not a request** and is **non-negotiable**. Failure to comply with any of the above will result in immediate loss of access to the sound system.
