

*Change your gut,
Change your life.*

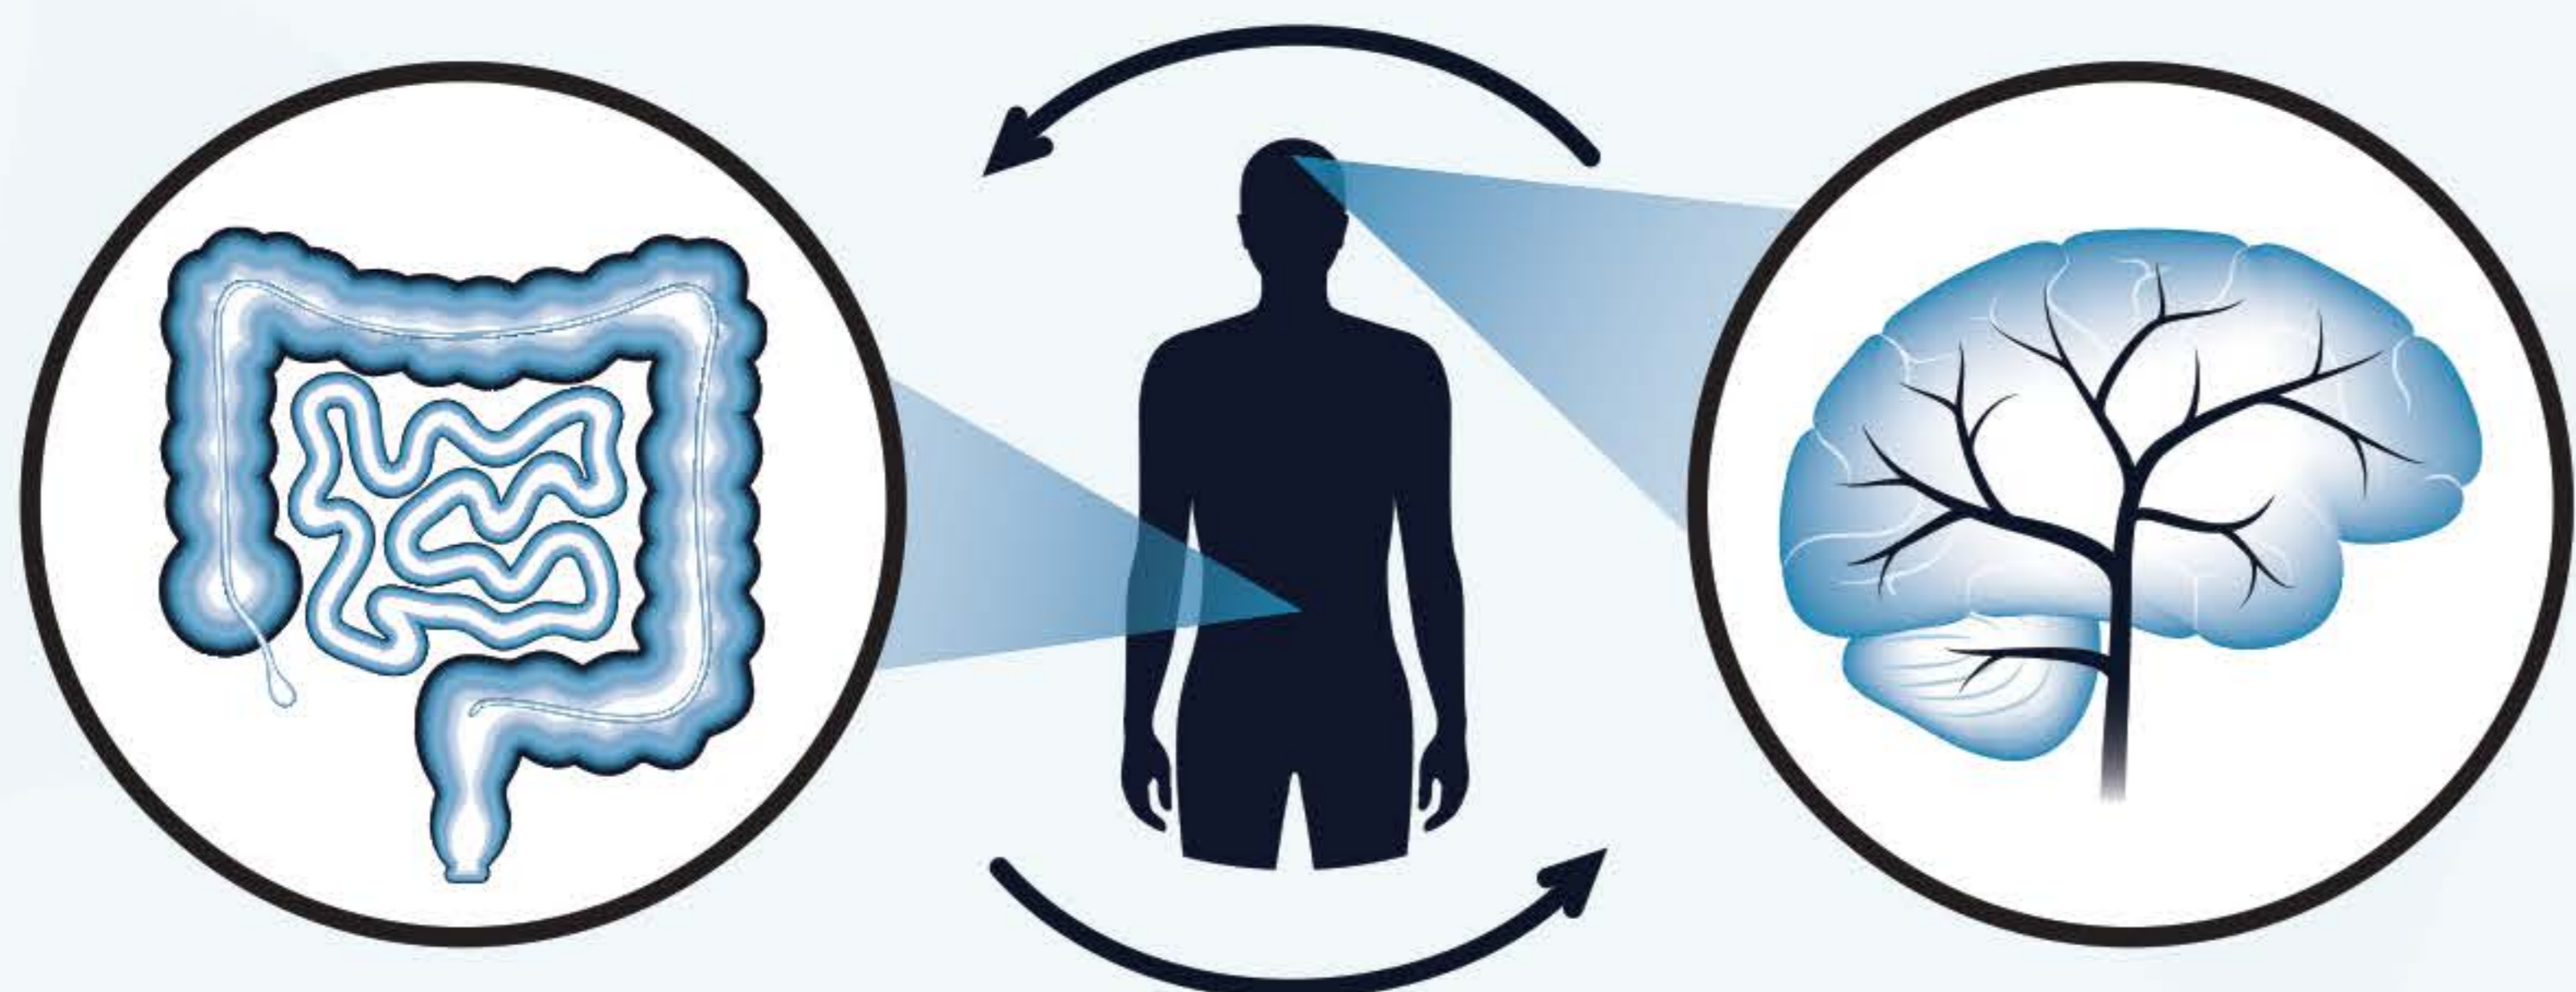

YOUR "SECOND" BRAIN

Science has discovered a second brain hidden in the walls of your digestive system. Your "second brain" links digestion, mood, immune health, and even behavior. Science calls this little brain the enteric nervous system (ENS). The "second brain" is two layers of more

ADVANCED DIGESTION & GUT-BRAIN FORMULA

than 100 million nerve cells lining your gut, and it sends signals to your big brain or central nervous system (CNS). For people experiencing gut issues, this can trigger emotional & physical health shifts. Together, our "two brains" play a key role in overall health and well-being.

ENTERIC NERVOUS SYSTEM (ENS)

CENTRAL NERVOUS SYSTEM (CNS)

- Gut microbiome diversity
- Healthy G.I. mucosal layers
- Regulation of gut digestion
- Supports compromised gut
- Proper immune system activity
- Positive overall mood
- Supports healthy adrenals

ADVANCED PRE, PRO, & POST-BIOTIC BLEND

Our proprietary formula is a rare multi-biotic blend that promotes microbiome diversity with beneficial bacteria to help maintain gut barrier integrity.

GUT RESTORATIVE PEPTIDES

P.R.P. (Proline-Rich Polypeptides) supports peptide building blocks in the G.I. tract, calms gut discomfort, and reduces bloating.

LAB-CERTIFIED 6-HOUR COLOSTRUM

Bovine colostrum isolates provide a wide variety of nutrients, immunoglobulins, passive antibodies, and peptides that support healthy tissue in the gut lining.

MARINE ALGAE SUPERFOOD

85% pure fucoidan from the pristine Blue Zone waters of Okinawa, Japan, increase the abundance of the beneficial bacteria lactobacillus and maintain healthy mucosal layers of the G.I. tract.

GB6 MULTI-BIOTICS: WHAT'S THE DIFFERENCE?

PREBIOTICS: THE SOIL

Tilling the soil & putting the gut in a constant state of readiness. Prebiotics, fiber found in leafy greens, make the gut ready for beneficial bacteria.

PROBIOTICS: THE SEED

Planting the seeds to create the right balance. Probiotics, live beneficial bacteria that ferment fibers & other prebiotics to make metabolites.

POSTBIOTICS: THE HARVEST

Constant, never-ending harvesting. Postbiotics, fermented bacteria that contain beneficial metabolites.

METABOLITES:

Metabolites are substances that are produced by bacteria & heat, which include The Harvest that supports your health, such as amino acids, vitamins, short-chain fatty acids, and more vitamins, short chain fatty acids & more.

IMMUNE & GUT SUPPORT

GB6 contains a multi-biotic that delivers beneficial fibers, bacteria, metabolites & more directly to your gut. GB6 helps support your immune, gut & mental health to allow you to live your best life every day!

FREQUENTLY ASKED QUESTIONS

WHAT IS GB6?

GB6 is a powder supplement formula designed for advanced digestion and gut-brain support.

WHAT IS THE GUT-BRAIN CONNECTION?

Science has discovered a second brain hidden in the walls of your digestive system. Your “second brain” links digestion, mood, immune health, and even behavior. Science calls this little brain the enteric nervous system (ENS). The “second brain” is two layers of more than 100 million nerve cells lining your gut, and it sends signals to your big brain, or central nervous system (CNS). For people experiencing gut issues, this can trigger emotional & physical health shifts. Together, our “two brains” play a key role in overall health and well-being.

WHAT INGREDIENTS ARE IN GB6?

Bovine colostrum, 85% pure fucoidan, a special beta-glucan plant fiber, P.R.P. peptides, prebiotics, probiotics, and postbiotics.

IS GB6 SIMILAR TO PROBIOTICS OR ENZYMES?

No, probiotics are only one of the fermentation biotics needed to create beneficial bacteria. GB6 contains a multi-biotic (pre-biotics, pro-biotics, and post-biotics) that creates a much more diverse microbiome to support an optimal environment for digestion.

FREQUENTLY ASKED QUESTIONS

WHAT IS A MULTI-BIOTIC?

Our multi-biotics contain all three forms of biotics (pre, pro, & post), which plant, seed, and harvest the most abundant beneficial bacteria for a healthy gut ecology system.

HOW DO I TAKE GB6?

Using the scoop provided, take four rounded scoops per day. Place it on the tongue, or mix it with water or juice for easy consumption.

WHY SHOULD I TAKE GB6?

If you suffer from occasional gas, bloating, or indigestion, these are all signs your gut could be imbalanced. Our everyday diets can wreak havoc on the gut and cause a ripple effect of health issues. Correcting a poor diet & eliminating food sensitivities is often not enough to solve the problem. Additional supplementation with GB6 brings components that allow the body to experience relief and comfort to digestion issues by balancing your gut flora.

WHAT DOES GB6 DO?

GB6 feeds your gut what it needs to maintain a strong barrier & healthy mucosal lining. When you detox & strengthen your gut, this balances the brain by aligning the communication link with the brain and intestinal functions.

FREQUENTLY ASKED QUESTIONS

WHO SHOULD TAKE GB6?

GB6 is intended for adults 18 and older, but it is safe for children if taken under a doctor's supervision.

DOES GB6 WORK WITH SPECIAL DIETARY RESTRICTIONS?

GB6 contains milk-derived proteins from the bovine colostrum. While not considered dairy-free, these proteins are in trace amounts. GB6 is gluten-free, soy-free, GMO-free, shellfish-free, and sesame free.

CAN I TAKE GB6 WITH OTHER SUPPLEMENTS OR MEDICATIONS?

Yes, there are no known contraindications with GB6, but check with your doctor to be safe.

IS GB6 SAFE TO TAKE WHILE PREGNANT OR NURSING?

All the ingredients are natural and do not pose any safety concerns for pregnant or nursing women. However, check with your doctor before adding it to your routine.

DO I NEED TO REFRIGERATE GB6?

No, GB6 has a shelf life of 3 years.
