

Join the Premium Business-Class Experience

Verified Intel® Evo™ vPro® platform-based laptops deliver all of the performance and security benefits of the 11th gen Intel vPro® platform with a premium business-class experience and barrier-free collaboration for your workforce.

- 40%+ improved responsiveness compared to a 2-year-old premium laptop while on battery.
- 30-minute charge provides 4+ hours of real-world battery life for laptops with FHD displays.
- 9+ hours of real-world battery life provides enhanced video conferencing for laptops with FHD displays.
- Instant wake (<1 sec) enables users to jump right back into their workflows without missing a beat.
- Faster file transfers and functionality from Intel Thunderbolt™ 4 technology-based chargers and ports.
- Best-in-class wireless/wired connectivity improve the quality and reliability of high bandwidth interactions.

Laptops Designed on the Intel® Evo™ vPro® Platform are Co-Engineered with the Industry's Top Laptop Manufacturers:

Your No-Compromise PC Solution

The Intel vPro® integrated platform brings together business-class performance, hardware-enhanced security features, modern remote manageability, and PC fleet stability.

Best Performance

Up to 27% faster productivity with Office 365.

Productive Collaboration

Up to 41% faster office productivity during a video conference with New Intel® Wi-Fi 6/6E (Gig+).

Innovative Creation

Up to 2.5x faster video editing with Adobe Creative Cloud.

Most Comprehensive Hardware-based Security

Intel® Hardware Shield, available exclusively on all Intel vPro® platform-based devices, delivers integrated protection.

Efficient Remote Manageability

Repair corrupted drivers, application software, or the OS on non-responsive systems.

Highest Commitment to Security

Offering the security + support that only Intel can provide.

Verified Real-World Performance

Wherever you see the Intel® Evo™ badge, you can count on designs to have the following combination of purposeful technologies optimized for the experience you crave.

More Performance

11th Gen Intel® Core™ processors and Intel® Iris® X® graphics deliver 3x faster photo and video editing.

More Connections

Nearly 3x faster internet with built-in Intel® Wi-Fi 6 technology, versus standard Wi-Fi.

More Freedom

Count on 9+ hours of battery life on FHD displays so you can work anywhere.

More Immersion

Intel® Iris® X® graphics and razor-thin bezels make screen time more enjoyable.

More Flow

Wakes in less than a second and 40% more responsive than a 2-year laptop.

More Simplicity

Thunderbolt™ 4 provides a 40GB/s data transfer rate through a single-cable connection.
