

KEEP REMOTE, HYBRID, AND TRAVELING EMPLOYEES CONNECTED

Businesses are finding it increasingly important to provide hybrid working solutions to their employees. Whether they are traveling or working from home, projects still need to be completed. As an employer, it is your responsibility to equip your team with the technology and solutions they need to work from anywhere.

2021 Deloitte Corporate Travel Survey:

Companies plan to
increase remote employee
travel spends by

80%

between now and
the end of 2022.

Global Workplace
Analytics believes that

25-30%

of the workforce will
be remote by the
end of 2021.

DEVICES Devices may seem like a no brainer; however, many employers don't take the time to consider what their employees need when it comes to devices. Equip your employees with the storage, memory, travel friendly solutions, and components they need to successfully work from anywhere.

VPN A virtual private network is a must-have for businesses in an age where cyber-attacks are becoming more frequent. This software protects your employees whenever they connect to public Wi-Fi, keeping both their log in information and your valuable business data private and secure.

CLOUD STORAGE Cloud storage allows employees to access business critical files and information from anywhere. When you need unrestricted collaboration and editing, cloud-storage is the answer. In addition, moving to the cloud allows you to reduce costly infrastructure, saving your business money and IT headaches.

HEADSETS 59% of the total headphone market share is still held by wired options. Don't allow your employees to join a meeting with dead wireless headphones. Give your employees a plug-and-play option to ensure that they can hear and be heard by their co-workers.

Help your employees stay connected by providing them with comprehensive solutions that help them stay connected from anywhere. **Contact our team for more information.**

UNIFIED COMMUNICATION- AS-A-SERVICE

You want to provide a predictable monthly business cost, save IT time, and resources while also giving employees the latest technology. All of this is made easy by bundling hardware, software, and managed services together!

HARDWARE

We offer the latest hardware solutions to keep your remote employees connected from anywhere. In addition, all devices are customizable, allowing you to select the components and storage options for your employees' needs.

Laptops/Workstations

Tablets

Headsets & Handsets

Keyboards & Mice

SOFTWARE

We have a robust portfolio of collaboration software, allowing you to keep your clients virtually connected.

We also ensure that this software integrates perfectly with your devices to give your employees a seamless user experience.

MANAGED SERVICES

Simplify device management, reduce infrastructure costs, and provide your employees with dedicated, 24x7 customer service. Let our team handle these services so your team can focus on business-critical tasks and less on device management.

Help your employees stay connected by providing them with comprehensive solutions that help them stay connected from anywhere. **Contact our team for more information.**
