

FOR IMMEDIATE RELEASE

SOUL DIVE

NEW SINGLE

"myrtle beach"
OUT NOW

PITTSBURGH, PA — SOUL DIVE, THE HIGH SCHOOL-AGED ROCK BAND FROM PITTSBURGH, CELEBRATES THE RELEASE OF ITS THIRD SINGLE, "MYRTLE BEACH".

With echoes of The Clash and Green Day, "Myrtle Beach" is a fast-paced, energetic, hard-hitting punk rock track with lyrics that belie the upbeat nature of the song.

Already capturing the attention of national acts, Soul Dive opened for Modern Alibi and Love Scar on their local tour stops in June. Soul Dive also performed at the Millvale Music Festival and North Side Music Festival. Drusky Entertainment booked them as the headline act on a packed July 15 show at Jergel's Rhythm Grille. Coming events include Jazz's Rockin' Road Show internet TV broadcast, and a return date to Jergel's Rhythm Grille on Dec 17.

Following up their popular debut release of "Shell of a Man" which they performed live in-studio on Scott Tady's Beaver County Radio Morning show, and "Bender" which was performed live on 102.5 WDVE Friday morning Coffee House, "Myrtle Beach" is a raw, in-your-face, pop-punk song that establishes Soul Dive as a band on the verge of breaking out.

Recorded at The Vault Recording Studio in Coraopolis and developed by respected co-producers Greg Gordon (Greta Van Fleet/Oasis/Public Enemy/Run DMC) and Rob Deaner (Billy Idol/John Waite), the new single harkens back to the heyday of grunge and punk, but detonates with a style that is fresh, youthful and new.

"SOUL DIVE ALREADY POSSESSES WHAT MANY BANDS SPEND YEARS TRYING TO RECAPTURE: THE FEELING THAT THINGS MIGHT JUST SPIN OUT OF CONTROL."

— EXTRAVAROCK

"GREAT BANDS ARE TIMELESS IN ANY DECADE."

— GREG GORDON (PRODUCER)

Made up of Luca Becker (vocals, guitar), Cristiano Kinol (guitar), Santino Kinol (drums) and Rylan Ivanisin (bass), Soul Dive has quickly become one of the most talked-about young bands emerging from the Pittsburgh music scene. Their performances at local festivals, venues, showcases and even backyards have earned a reputation for delivering the kind of chemistry and live energy that can't be manufactured.
