

**✓ Remenik, Anna**  
For Langley Township Mayor

---

*A new future, a more  
balanced approach.*

## **Vote for a Township Mayor Who Listens**

It's time to address unsustainable development, poor infrastructure, increased crime, and community services that are challenged and over capacity.

We need a vision that puts first and foremost the quality of life for residents who are already here, as well as success and prosperity for farmers, equestrians, artisans, and businesses within the Township.

- Creating environmentally sustainable, and vibrant communities through more careful, thoughtful development.
  - Protecting and preserving our environment, aquifers, farmland, and the ALR.
  - Effectively managing and valuing our natural resources.
  - Prioritizing public safety and preserving our quality of life.
  - Public service, based on meaningful consultation, active listening, and solutions through respectful dialogue.
-
