One Platform for Restaurant Safety

Streamline visibility and centralize security across restaurant locations to improve employee, customer and food safety. Verkada is designed with user experience at top–of–mind, integrating intelligent devices with an intuitive software platform to add security without complexity.

Elevate the customer experience

Simplify security management

Proactively respond to incidents

Key benefits

Monitor from anywhere

Find, save and share footage on–the–go. Plus, share live camera feeds with local authorities in seconds.

Enhance business operations

Use data–driven insights like Occupancy Trends to optimize staffing and evaluate the performance of promotional activities.

Secure restricted areas with ease

Pair access control with video security for instant visual verification and set door schedules around hours of operation.

Respond to incidents in real–time

Receive alerts for meaningful events, including the presence of vehicles or people of interest.

Detect intrusions after–hours

Keep facilities secure with 24/7 professional monitoring and reduce false alarms with video–verified intrusion detection.

Integrate with point-of-sale (POS) systems

Using the Helix video search and integration engine, verify credit card transactions by linking POS data with corresponding video evidence.
