

# WHITE OAK

## SELECT & EURO

With light-colored sapwood and light to dark brown heartwood, white oak is mostly straight-grained with a medium to coarse texture.

It is a hard and heavy wood with medium bending and crushing strength and a natural durability that makes it resistant to decay.

# RED OAK

SELECT & EURO

The sapwood of red oak is white to light brown, and the heartwood is pinkish- or reddish-brown.

Red oak is mostly straight-grained with a coarse texture. This hardwood is heavy with medium bending strength and stiffness and high crushing strength.

RED OAK

# HICKORY

## EURO

Hickory is the hardest, heaviest and strongest American wood. The sapwood is white, tinged with inconspicuous fine brown lines, while the heartwood is pale to reddish-brown.

This hardwood has a coarse texture and fine grain that is usually straight but can be wavy or irregular. Hickory is also well known for very good strength, shock resistance and its excellent steam-bending properties.

# WALNUT

SELECT & #2 COM

Walnut's sapwood is creamy white, while the heartwood is light brown to dark chocolate brown with an occasional purplish cast and darker streaks. It also develops a rich patina that grows with age.

This hardwood is generally straight-grained but can sometimes have wavy or curly grain that produces an attractive and decorative figure. It is a tough hardwood of medium density with moderate bending and crushing strength and low stiffness.

WALNUT

# HARD MAPLE

## EURO

The sapwood of hard maple is creamy white with a slight reddish-brown tinge. The heartwood varies from light to dark reddish-brown.

Hard maple has a close, fine, uniform texture and is generally straight-grained, but it can also occur as curly, fiddleback or bird's-eye figured.
