

DECLAN HORGAN

ELECTRONIC PRESS KIT 2021

Declan Horgan is one of the most talented chefs in the culinary scene & is well on his way to becoming a household name in the 2020 decade. The 44 year old Ireland native would begin falling in love with food at an early age, but his career officially began while studying culinary innovation & food product development in Dublin. Learning about homegrown produce & the perfect menu design not only led him into the Executive Head Chef at Daniel O'Connell's Irish Restaurant, but it also led him to the U.S for the first time in his career in 2014.

By 2017, he was working out of his new home of Washington DC, cooking for the capitol's citizens & even Michelle Obama, who ordered Declan's renowned fish and chips. Combining his home country's flavour with his decades of culinary knowledge and careful but passionate approach, He has proven his chops to a number of historic chefs & delighted customers. *Guy Fieri* praised his performance on his Food Network show *Guy's Grocery Games*, and he even drew the rare compliments out of *Gordon Ramsey* when he appeared on *Hell's Kitchen* latest season.

His tenure on HK was nothing short of historic from the minute he walked on set. On top of being the first Irishman contestant in the show's history, Declan was also the first contestant in S19 to receive a perfect five out of five stars on his very first dish. Over the course of countless weeks, fans of the show have seen what talent and genius is behind him, causing his social media channels such as Instagram to increase over 400%.

His immense knowledge, clear dedication to his craft, and his "Lead, Follow, or F**K Off" mentality have made him a fan-favourite and THE one to watch and cheer for!
