

Welcome to **My Beach Locker** where...

it's finally safe to go back in the water!

The My Beach Locker product is designed as a portable safe that protects your guest's valuables. We offer two styles the Aquavault brand and the Deluxe cable style.

It is designed to securely hold cell phones, keys, wallets, sunglasses and other valuables your guest wants secured during their time at the beach or pool.

Each unit easily attaches to a lounge chair, umbrella, cabana, stroller, bicycle, moped or golf cart.

Many resort or vacation properties offer their guest food and drink service, spa/massage service and more, however most have not helped to solve their guest's security of their valuables when they swim or relax pool or beach-side...My Beach Locker solves that problem.

Our program is a revenue share product that

- **Improves the guest experience**
- **Increases property revenue**
- **Offers a benefit your competition does not**

Depending on your property's price point these units will rent for \$12 to \$20 per day with the **facility retaining 60% of the revenue**. There is no startup cost or out of pocket expense to the property.

My Beach Locker

Program Summary

Objectives:

- Improve guest experience
- Enhance property image
- Provide portable security for guests and their valuables

After property reviews agreement, signs and returns it

Step #1:

MBL ships units to the property at our cost.
