TOP LOADING KILNS

PLUG & FIRE

The Plug & Fire is as easy as the name suggests, just plug it in, to begin firing your small pots, jewellery, or test tiles. It arrives with everything you need (controller & furniture), you just plug it into a normal power-point and start firing. Made in the USA by our partners at L&L Kilns.

KEY FEATURES

- This kiln can fire to Cone 10 on a standard power point
- Extra-insulated sides with 6cm K23 bricks and 2.5cm of backup insulation; Top & Bottom are 7.5cm K23 bricks
- Kiln plugs into a separate control panel with power and thermocouple wire jack
- Door safety switch shuts off power to the elements when the door is opened
- Hard ceramic element channels
- Arrives in 2 boxes with clear assembly instructions

The GENESIS 2.0 Mini Touchscreen controller includes a touchscreen interface and WIFI connectivity. The intuitive interface is easy to use and understand. A free phone app allows you to monitor your kiln remotely.

	Litres (approx)	Power	Internal Dimensions mm	Supply	Price

EcoKiln+ 46

The EcoKiln+ 46 is a high-performance, energy-efficient kiln manufactured in the UK by our partners at Kilns & Furnaces in Stoke-on-Trent. Designed for ceramic artists, schools, community studios, and home potters, the EcoKiln+ delivers dependable firing results with low running costs and excellent thermal efficiency.

With a compact footprint and Standard 'Double' amp powerpoint, the EcoKiln+ 46 is ideal for studios needing professional performance without requiring specialised electrical installation.

KEY FEATURES

- Approx. 46.2 litre chamber capacity
- Maximum temperature: 1300°C
- Triple-layer high-density insulation to chamber, floor & lid
- A1 grade spiral wound elements
- Stafford ST215C programmable controller included
- Mild steel powder-coated body
- Lockable castor wheels for mobility and stability
- Captive lid key with interlocking safety switch
- Standard single-phase power connection

	Litres (approx)	Power	Internal Dimensions mm	Supply	Price
EcoKiln+ 46	46.2	3.0kw	Depth 340 Width 400	13 Amps Single Phase	\$5,890

TOP LOADING KILNS FIRED UP RANGE

Compact, reliable, and beautifully designed.

Handcrafted for Fired Up Kilns by our expert partners in Jiangxi Province—China’s legendary porcelain-making region with over a thousand years of ceramic heritage—this kiln brings tradition and modern performance together.

KEY FEATURES

- Lockable wheels for easy movement and storage
- Optional OBSiC shelves & OBSiC props can be added
- Door safety switch shuts off power to the elements when the door is opened

	Litres (approx)	Power	Internal Dimensions mm	Supply	Price
Fired Up 13	13	2.2kw	Depth 270 Width 250	10 Amps / Single Phase Standard Power Point	\$2,650

AFFORDABLE
DURABLE & RELIABLE

Introducing the Craft Kiln Range, a superior product with over 40 years of proven excellence in the market. Originating from the Netherlands, these meticulously crafted kilns have become synonymous with quality and reliability. Every Craft Kiln in our range is hand-built, ensuring the highest level of precision and attention to detail.

KEY FEATURES

- Casing made of high-quality stainless steel
- 25mm backup insulation blanket for optimal power saving
- Additional insulation plates in bottom and lid (only in the Craft *Smart* 60)
- Elements made of sustainable and durable kanthal wire
- Safe and solid connection to your controller
- Unique sturdy frame with dual heights (10cm higher or lower)
- Fitted with castors for easy movement
- S Thermocouple
- 1320°C max temp (1300°C Craft *Smart* 60)
- Comes with the Stafford ST215C Universal Controller with up to 32 programs, each with up to 32 ramp/soak segments

FRONT LOADING INDUSTRY RANGE

After years of searching for the ideal compact front-loading bench kiln, we decided to build our own.

The Industry 50 & 70 are a quality space saving design, perfect for studios and benches. Its sturdy construction, high quality materials, and safety features make it a long-term investment for any workspace.

Powerful, reliable, and compact kilns—designed for serious makers with limited space.

KEY FEATURES

- Maximum Temperature: 1300°C
- Even Heat Distribution – Kanthal A1 or Resistohm 145 elements in side-wall grooves
- Robust Build – Galvanised steel frame with marine-grade sheet metal lining
- High-Quality Insulation – Low thermal mass bricks with high-grade board backing
- Enhanced Safety – Dual contactors included to reduce the risk of over-firing
- User-Friendly Control – Includes the reliable Stafford ST315C controller

	Litres (approx)	Internal Dimensions	Price
INDUSTRY 50	50	380mm wide x 380mm deep x 340mm high	\$6,990

GAS KILNS *BLAAUW*

Experience the next generation of gas kiln technology.

The Blaauw Kiln Range combines smart design, cutting-edge innovation, and superior craftsmanship to deliver exceptional results every time. Each kiln is computer controlled, offering precise bisque, glaze, reduction, and drying programs that make firing more consistent, efficient, and repeatable.

Designed with sustainability and energy efficiency in mind, Blaauw kilns feature intelligent firing systems that minimise gas consumption without compromising performance. Their intuitive and user-friendly interface makes operation simple – whether in a school, studio, or production environment.

Bespoke kilns are also available, built to your individual design needs for a fully customised solution.

If you're looking for the best in gas-fired kiln performance, Blaauw offers an unmatched solution built for precision, durability, and long-term value.

Fired Up Kilns is proud to partner with Blaauw Kilns, bringing their groundbreaking gas kiln technology to Australia and New Zealand.

HIRE FIRE OPTION \$62.00

Ideal for firing beads and jewellery. By threading your pieces onto the wire, you can glaze the whole exterior of your piece. You can elevate these on sturdy kiln props for more clearance to hang longer pieces. Made from Cordierite Mullite with 2.3mm Kanthal A1 wires, that can be rearranged to accommodate different sized pieces. Rated to 1240°C.

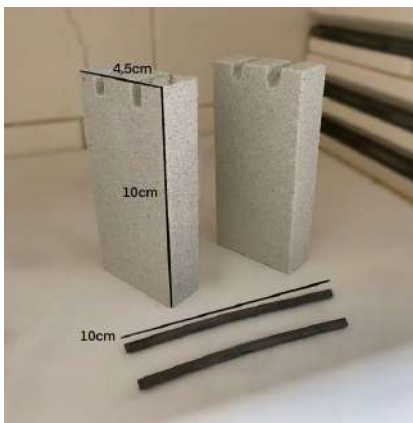

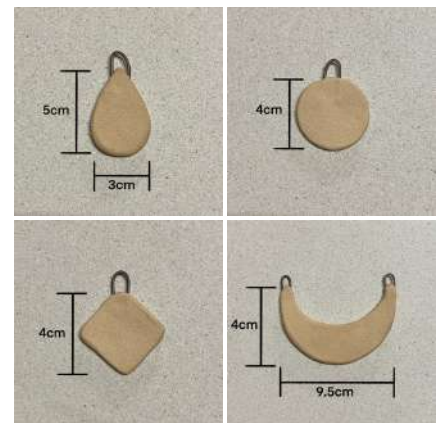

TUNGSTEN WIRE BEAD RACK \$34.95

ALUMINUA TUBES 1430°C from \$2.00

PENDANT RACK

PENDANT RACK \$24.00

Safely hang your delicate ceramic pendants for seamless firing.

10cm high, Kanthal A1 wires, 100mm grooved supports, max temp 1240°C

Recommended pendant size in picture are:

Circle - 4cm, Diamond shape - 4cm, Drop shape - 3cm wide x 5 cm high, Croissant shape - 9.5cm wide x 5.5 cm high

KILN ELEMENTS

We wind our elements, not just for Fired Up Kilns, but all brands.

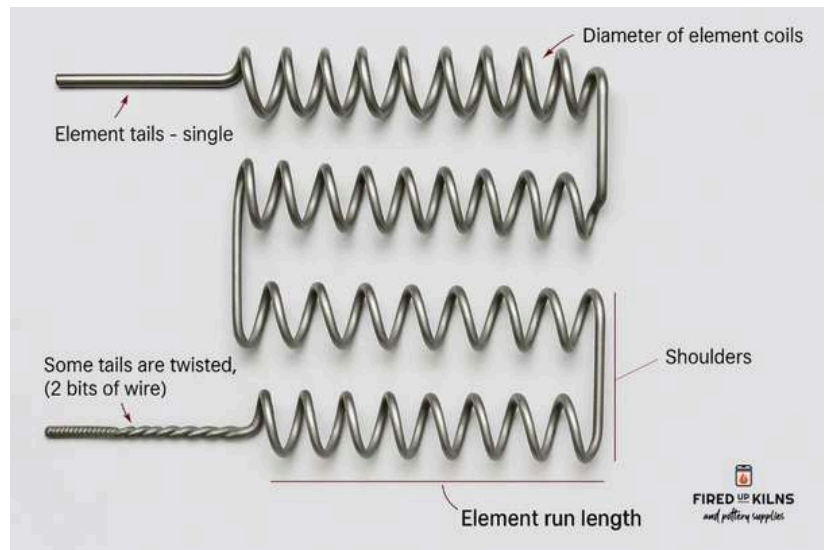

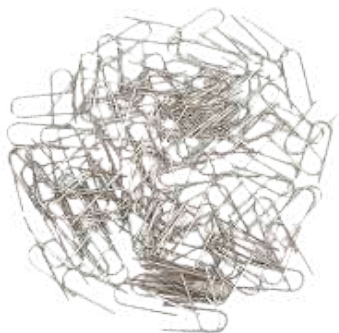

CLICK HERE to complete the element Order Form.

ELEMENTS FOR FIRED UP KILNS

You can order online replacement elements for kilns purchased through Fired Up Kilns.

WE NEED TO HAVE ALL OF THE REQUIRED INFORMATION TO BE ABLE TO WIND ELEMENTS FOR OTHER KILNS:

1. A detailed drawing of the element set-up.
2. If a specification plate is visible, notate the current drawn, kW rating and voltage of the kiln. Also the model or serial number if available.
3. Length of the elements and the number of grooves it occupies.
4. Indicate whether tails are twisted or single and the length.
5. Measure the outside diameter of the coils.
6. Measure the thickness of wire – use a vernier for accuracy, as the nominal difference between wires can be 0.1mm.

FIRED UP WHEELS

FIRED UP PW-DC TABLE-TOP

Perfect for beginners and small spaces, featuring a 1/3 HP motor, 300mm wheel head, removable splash pan, 300RPM bi-directional rotation, and foot pedal speed control.

FIRED UP PW-DC ADJUSTABLE LEGS

Features adjustable legs (461-661mm), a powerful 3/4 HP motor that handles 45kg of clay, and a quiet, vibration-free design. It includes a 355mm wheel head, removable splash pan, and 300RPM bi-directional rotation.

FIRED UP PW-DC

This pottery wheel has a 3/4 HP motor with great torque, handles 45kg of clay, runs quietly, and features a 355mm wheel head, removable splash pan, and 300RPM bi-directional rotation.

FIRED UP BAILEY POTTERY WHEEL

Designed for studio and professional use, the Bailey Pottery Wheel offers quiet, consistent power, ergonomic comfort, and a durable, compact build.

FIRED UP WHEELS

FIRED UP 300 POTTERY WHEEL

Our most affordable pottery wheel — whisper quiet with a powerful 300W direct drive motor and smooth foot pedal control up to 300 RPM. Includes 32cm aluminium wheelhead, bat pins, removable splash pan & adjustable legs.

FIRED UP 800 POTTERY WHEEL

a strong, reliable wheel that delivers smooth, quiet performance without the hefty price tag. Powered by an 800W direct drive brushless motor, it offers precise control up to 300 RPM, along with both clockwise and counterclockwise rotation. With a durable 32cm aluminium wheelhead, adjustable legs, and an easy-to-clean removable splash pan, it's built for comfort, convenience, and consistent results.

COWLEY POTTERS WHEEL

Cowley Double Drive Potters Wheel

Made in New Zealand, the versatile Cowley Double Drive Wheel has a sturdy 280mm aluminium wheel head, adjustable speed, and a 20kg weight capacity. Its double-drive system delivers torque for large pots. Its compact and lightweight design makes it perfect for demonstrations and easy storage.

SHIMPO POTTERY WHEELS

\$1,749

SHIMPO RK-55 POTTERY WHEEL

Lightweight and portable, the Shimpo RK-55 is perfect for beginners and classrooms. It features a belt-driven design, remote foot pedal, two-piece splash pan, and built-in worktable. With a smooth, quiet motor, automatic belt tension, and a stable three-leg design, it offers reliable performance with a 10kg centering capacity.

\$2,390

SHIMPO WHISPER RK-3T

Powerful and responsive, with high torque at all speeds, operates quietly at 30 decibels, can be used as a tabletop, and features adjustable telescopic legs with three settings for all throwing positions.

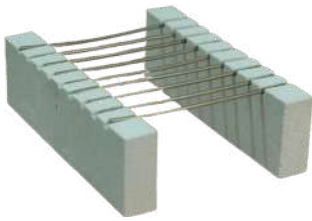

\$2,960

SHIMPO WHISPER RK-3E/VL

Features a powerful brushless Direct Drive motor for high torque, adjustable legs for stability, an electronic speed controller, a two-piece splash pan, a built-in worktable, and a detachable foot pedal, accommodating a 45kg centering capacity.

LoStone Clay Range

LoStone redefines stoneware, vitrifying at just 1160°C while maintaining the strength, durability and finish you expect. Lower firing temperatures mean reduced energy use and firing costs, making it ideal for studios, classrooms and production environments.

PUG MILLS

PETER PUGGER PUG MILLS (POA)

A Reliable and Efficient Choice for Clay Preparation
Peter Pugger Pugmills are ideal for mixing, de-airing, and reclaiming clay. Designed for hobbyists and professionals alike, they offer consistent results and come in a range of sizes to suit any studio.

**OPTIONAL
RECEIVING
PLATFORM \$420**

\$2990

FIRE UP MINI PUG MILL

Our Fired Up Mini Pugmill delivers 80–100kg of clay per hour with a 60mm extrusion, stainless steel build, vacuum system, and safe outboard shaft rotation — all in a compact 60kg unit.

\$3,890

FIRE UP PUG MILL

An affordable, high-output solution, processing 80–100kg per hour with a powerful 2.2kW vacuum system, safety cut-off feature, and easy plug-in operation.

\$495

PUG MILL PLATFORM

A handy clay receiving platform for your pug mill.

- 66cm x 35cm x 58cm (Height Adjustable)

BALL MILLS

**SINGLE
\$995**

FIRE UP BALL MILLS - SINGLE & DOUBLE (5L)

An affordable solution for grinding materials into fine particles.

Our Fired Up Ball Mills are designed to effectively break down materials like clay or glaze components into fine powders. Simply place the materials into the rotating jar along with porcelain balls. As the jar rotates, the porcelain balls pulverize the materials, resulting in a fine, uniform powder. Ball mills are versatile; they can refine a single material or be used to mix multiple materials while pulverizing them, offering an efficient and reliable milling process.

**DOUBLE
\$1295**

STUDIO FURNITURE

DAMP CABINETS (POA)

Made by Gladstone in the UK, these sturdy damp cabinets come in 4 varying sizes that are specifically designed for the safe storage of green ware.

The basic construction consist of zinc coated sheet steel which is powder coated, each damp cabinet is fitted with neoprene door seals and a lockable door handle.

The damp cabinets are supplied as standard with four removable shelves which can be positioned at variable heights.

Made to order, so allow a 3 month lead time.

DRYING CABINETS (POA)

Made by Gladstone in the UK, these Drying Cabinets have been specifically designed to aid the drying of plaster moulds and clay ware.

The unit consists of a fabricated, zinc coated steel cabinet with two vertical hinged front opening doors which give unrestricted access to the four removable open mesh shelves.

Each shelf can be positioned at different heights to allow for varying heights of moulds or ware.

Plugging into a standard power point, the unit has a ceramic heating element which has a variable power setting to control the amount of heat introduced into the cabinet.

Single Drying Cabinet: Depth 600mm x Width 1220mm x Height 1220mm

Double Drying Cabinet: Depth 600mm x Width 1800mm x Height 1220mm

Made to order, so allow a 3 month lead time.
