# TOP LOADING **PLUG & FIRE**

The Plug & Fire is as easy as the name suggests, just plug it in, to begin firing your small pots, jewellery, or test tiles. It arrives with everything you need (controller & furniture), you just plug it into a normal power-point and start firing. Made in the USA by our partners at L&L Kilns.

## KEY FEATURES

- This kiln can fire to Cone 10 on a standard power point
- Extra-insulated sides with 6cm K23 bricks and 2.5cm of backup insulation; Top & Bottom are 7.5cm K23 bricks
- Kiln plugs into a separate control panel with power and thermocouple wire jack
- Door safety switch shuts off power to the elements when the door is opened
- Hard ceramic element channels
- Arrives in 2 boxes with clear assembly instructions

The GENESIS 2.0 Mini Touchscreen controller includes a touchscreen interface and WIFI connectivity. The intuitive interface is easy to use and understand. A free phone app allows you to monitor your kiln remotely.

## FIRING SERVICE

Our firing service offers artists an easy, cost-effective way to fire ceramics without a personal kiln.

**To keep costs low and service fast, please:**

- Complete the Firing Services form
- Ensure glazed bases are clean & ware is bone-dry clay only
