

# Village Of Cache Creek

## Policy No. D-2

### Sewage Disposal Permit to Accompany Building Permit

**Date Approved by Council:**

March 13, 1995

**Effective:**

March 13, 1995

**Date Amended by Council:**

August 18, 2003

**Effective:**

August 18, 2003

**Policy Statement:**

The Village of Cache Creek shall ensure that anyone constructing a building with a sewage disposal system (drainage field, septic tank, etc.) is made aware of the requirements.

**Purpose:**

The purpose of this policy is to ensure that anyone constructing a building with a sewage disposal system is made aware of the requirements.

**Procedure:**

The attached Notice is to accompany any building permit for the construction of a sewage disposal system.

NOTICE

This building permit is issued on the basis of the "Permit to Construct a Sewage Disposal System" issued by the Ministry of Health. Any owner who commences any construction, including construction of the sewage disposal system, before the expiry of the 30 day appeal period or the conclusion of any appeal to the Environmental Appeal Board in respect of the issuance of the sewage disposal permit does so at the owner's own risk, including the risk of not being able to occupy the building.

The owner is solely responsible for determining whether the sewage disposal permit is revoked or altered and the Village of Cache Creek will not be responsible to verify the existence or the status of any of the appeals. The Village of Cache Creek accepts no responsibility for any damages or losses incurred due to an owners failing to verify whether an appeal is taken and if so, whether it is allowed.

If the sewage disposal permit should be revoked or altered so that the building authorized by this building permit must be changed, then an amendment to the building permit will be required.
