

Attention! Your Streets Will Be Closing Friday, May 9th (**YELLOW SECTION**) For Paving

During the closure, the streets will not be available for travel or parking whatsoever. If you need to use your vehicle during the closure, **please plan ahead** by parking your vehicle outside of the area designated as closed.

Overnight Parking will be available at the Countryside Community Center at 9151 N Bald Eagle Ave

****See map showing street closures****

WHY IS MY STREET CLOSING?

The streets in your community are having a pavement preservation treatment installed that helps significantly extend the life of asphalt streets. The benefits of properly maintained streets include higher property values, a smoother/safer ride, and reduced costs to the community by prolonging the need for replacement.

ANY VEHICLE PARKED ON CLOSED SECTIONS WILL BE TOWED

Work will commence at **7:00 AM**, and the streets being treated will be closed until **7:00 AM** the following morning. All vehicles must be removed from the street prior to 7AM in the area being worked on that day. A tow truck will be called for any cars parked on the streets scheduled to be treated that day. Towing expenses will be the owner's responsibility.

Contact your HOA Board or Manager for info on towed vehicles or parking*

WHAT IF I DRIVE ON THE STREET WHILE CLOSED?

You will be liable for damage to your vehicle and to repair the area you have driven on. Minimum repair cost is \$600, up to \$3,500, to repair the installed surface treatment. In the event of a life-threatening emergency, emergency vehicles will not be stopped from driving on treated surface.

CAN I WALK ON THE STREET DURING THE CLOSURE?

Our product, HA5, can be walked on once it dries to a matte/chalkboard finish, usually within an hour or so of the application. We apply two coats of the HA5 throughout the day, so there will be two waiting periods that the street cannot be walked on.

All Villas streets will be closed (Doria, Carolanne, Joanna, Matilda) for 24 hours: from 7am Fri May 9th to 7am Sat May 10th

ALL OUTSIDE WATER MUST BE TURNED OFF

Water may damage the installation of the surface treatment. Please do not have sprinklers, hoses, etc. set to come on 24 hours before the street closure, during street closure, or 24 hours after the street closure. Damage due to outdoor water use will result in the same repair cost of \$600 minimum, up to \$3,500, to repair the installed surface treatment.

WEATHER CANCELLATION PROCEDURES:

If your street is canceled due to weather, **ONLY THAT DAY** will be rescheduled. All other days will proceed as scheduled. You will receive a new notification of the rescheduled date.
