By signing below, you are indicating you understand the above listed refill policies and authorize Complete Healthcare Services to electronically transmit prescriptions to the pharmacy of your choice, review pharmacy benefit information and medical dispense history as long as you are a patient at this office or until you withdraw that consent.

OUTSIDE SERVICES BILLING

I understand that certain laboratory studies will have to be sent out to a reference lab, i.e. Quest or LabCorp. This lab will send a separate bill for those studies. I understand that Complete Healthcare Services charges a technical fee for equipment, technicians and other operating expenses. I understand I will be receiving a separate bill from the reference lab for any lab work sent to them.

PRESCRIPTION REFILL POLICIES

Prescription refills

- If you are prescribed medications, you will be provided with an initial prescription and refills to last until the suggested follow-up visit. It is your responsibility to schedule your follow-up appointment before the prescription runs out to insure a continued supply of medication.
- Medication refill requests will not be authorized if you fail to keep your follow-up appointments. To give good clinical care patients must be seen on a regular basis.
- Only minor changes in your medication regimen can be made between appointments. If a major change in your medication regimen is needed you will need to be seen by your provider before these changes can be made.
- We do not accept faxed refill requests from your pharmacist.
- It may take up to 48 hours for reviewing your medical history and deciding if the requested refill is appropriate.
- Please call your pharmacy to see if your request was processed before calling the office to request the same refill a second time.
- Routine prescription refills will not be provided on the weekends.
- All medications are to be taken as prescribed. If patient takes medication in excess of what is
 prescribed and runs out of medication early (prior to refill date), the refill will not be authorized until refill

- In general, if a patient is already being treated by a pain management physician, all pain medications will need to be managed by the patient's existing pain management specialist.
- We require regular blood work for all patients on prescription medication, which is necessary for monitoring the safety and effectiveness of the medication. The interval will vary based on the medication prescribed. Patients who do not schedule for their regular intervals of blood work will not have their prescriptions refilled.
