The world is changing rapidly. Overseas Vietnamese culture and identity are gradually extinct as we spread out thinly around the globe and integrate deeply into the local society.

Can Overseas Vietnamese preserve our own culture and identity as generations after generations immerse deeply into the local society?

Thanksgiving is a project aimed to maintain, expand and create new Vietnamese Business Enterprise in an exclusive island with current existing infrastructure such as those businesses shown on the map above. The goal is to build a Vietnamese Cultural and Eco Village integrating with multi-mini waterfront resorts, tropical fruit farms, Vietnamese school, multi Vietnamese housing communities, outdoor marketplaces, shops, restaurants and digital education with real life onsite learning, living and touring experiences of Vietnamese language, food, history and way of life in an exclusive tropical island of Florida.
