It's spring in our 50th birthday year and it's time to celebrate all the good things, including our nation's heritage! Rooibos, indigenous to South Africa, only grows in a small area in South Africa and is the reason why Annique started in the first place. Let's rejoice at the marvel of this magnificent, unique plant.

Suffering from allergies? Our Rooibos products can provide relief. September is also Heart Health Awareness Month. Rooibos, is the perfect ingredient to help curb the rising statistics associated with heart disease. Here's why you should be drinking Rooibos for a healthy heart:

- Antioxidants protect against cell damage, thereby reducing inflammation
- Studies have shown a significant reduction in "bad" LDL-cholesterol levels, while increasing "good" HDL-cholesterol
- Suppresses the angiotensin-converting enzyme (ACE), which is responsible for increasing blood pressure
