NEWS RELEASE 4th June 2026 - BOILER REPLACEMENT TO COMMENCE

We are pleased to announce that the work to replace the life expired boiler which enables the Parish Church to be heated will commence on Tuesday 9th June 2026.

Although we do not anticipate any significant disruption to access or use of the church, visitors should be aware that contractors will be working and there may be some temporary limitation of access to the grounds to enable removal of the old boilers and the installations of the new ones. There may also be some noise from the works within the building during times when the contractor is at work.

The boiler replacement is the first step in our plan for renewal of the heating system and a cornerstone in developing a long-term programme for the building which will enable it to support our Vision of it being a place of the Everyday with something for Everyone.
