

New TF33 Engines

Pratt & Whitney JT12  
Auxiliary jet engines

Cut line

Pratt & Whitney JT12  
Auxiliary jet engines

Martin RB-57F Canberra

Cut line

New exhausts  
Both sides

Notes\* The JT12 engines will need  
the exhausts drilled out and small  
pylons made from plasticard.  
Clean the engines up using 1200 grade  
Wet and dry paper.

The main TF33 engines also need the new  
Exhausts fitted. Some RB-57G had an exhaust  
shroud fitted.
