1

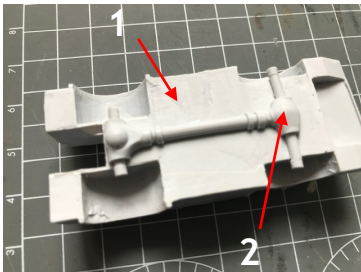

Clean up

Stage 1 is to clean up all the parts, cut from resin runners and wash in warm soapy water. Once all the parts have been washed & dried, but back in plastic bags for safe keeping.

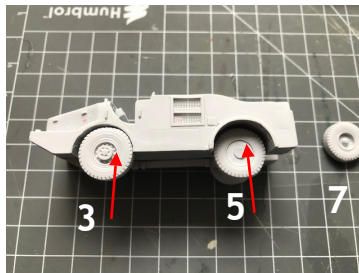

2

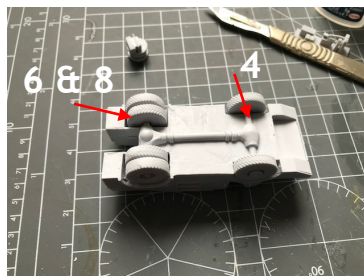

Stage 2 - Wheels and chassis.

Fit chassis Part 2 to the main underside of the body Part 1. Ensure you get this lined up and axle spacing. A tip I used was blue tack the front and back wheels onto the chassis to line all up.

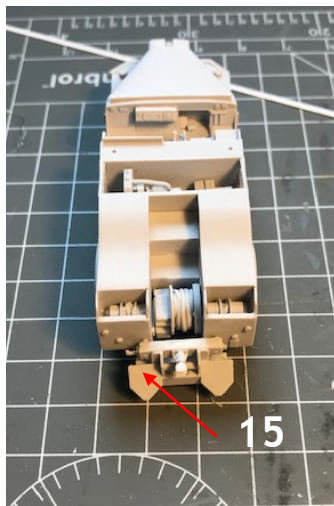

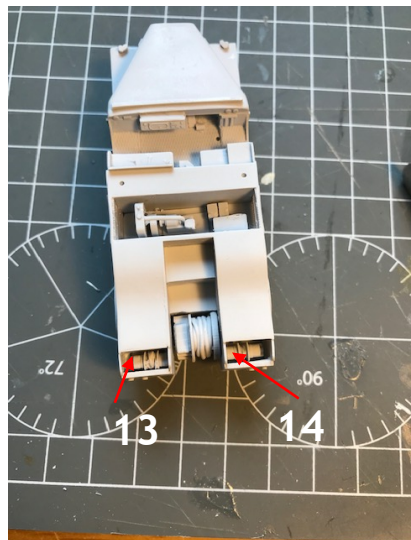

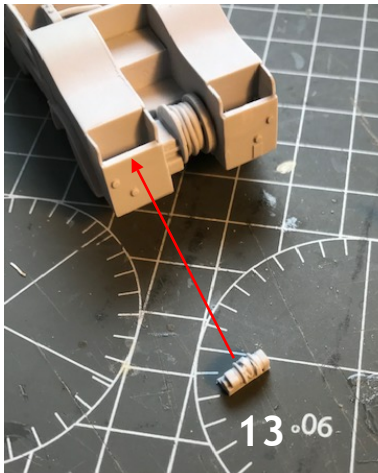

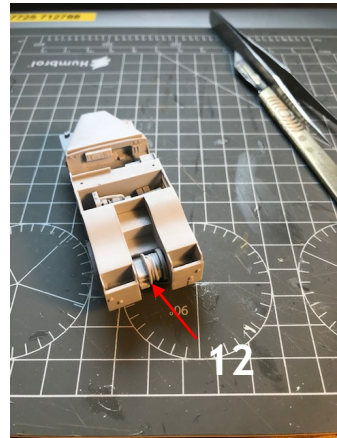

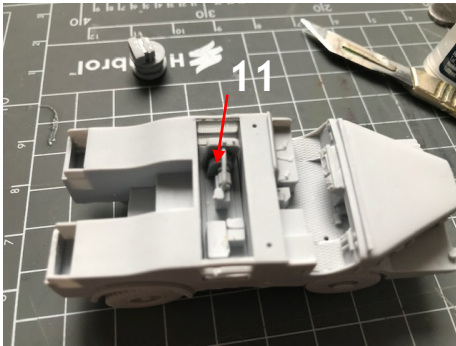

I fitted the front wheel on both sides and then the rear Inner wheel on one Side to ensure Everything sat flat and level.

Once I was happy With everything, I then fitted the outer rear wheels.

3

Stage 3 - Rear Detailing

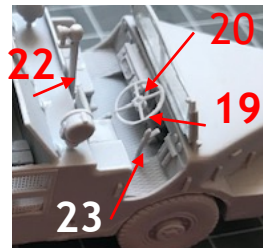

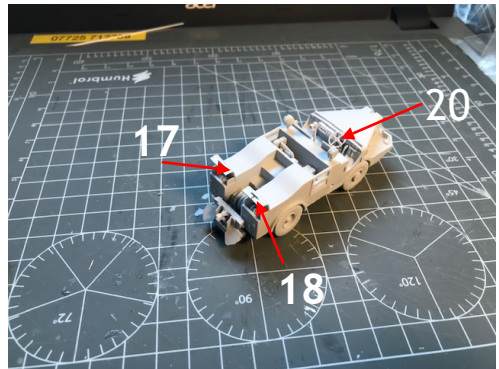

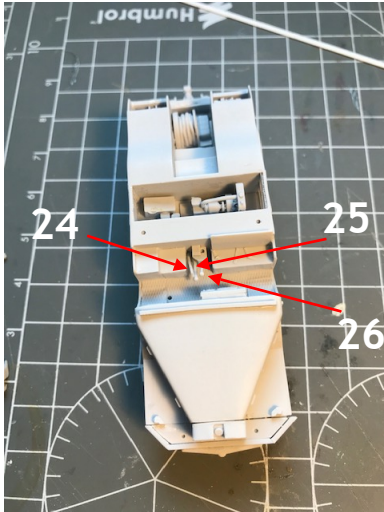

It is important you follow these steps as if Not is is difficult later on to fit the resin Inserts. Note Part 11 direction of parts. Also, Part 13 and 14 which way around they Fit.

Lastly, Part 15 sits flush with the rear body So the small resin lugs need sanding off.

4

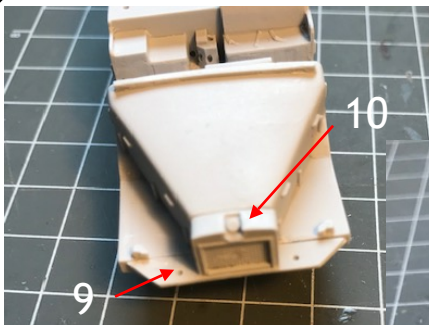

Stage 4 - Cabin Detailing

Fit the gear levers etc, Parts 24, 25 & 26 before anything else.
Fit steering wheel column Part 19, steering wheel Part 20 and hand brake Part 23.

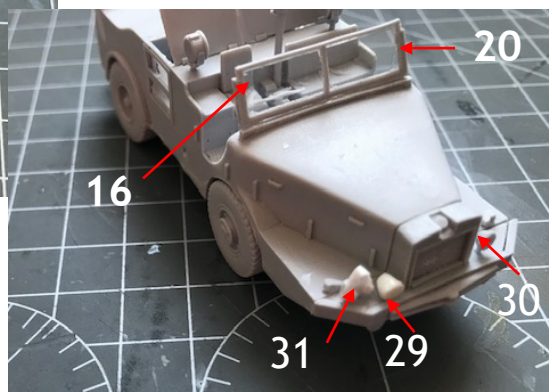

5

Stage 5 - Front Detailing

Fit the front bumper Part 9
Followed by the radiator grill Part 10.

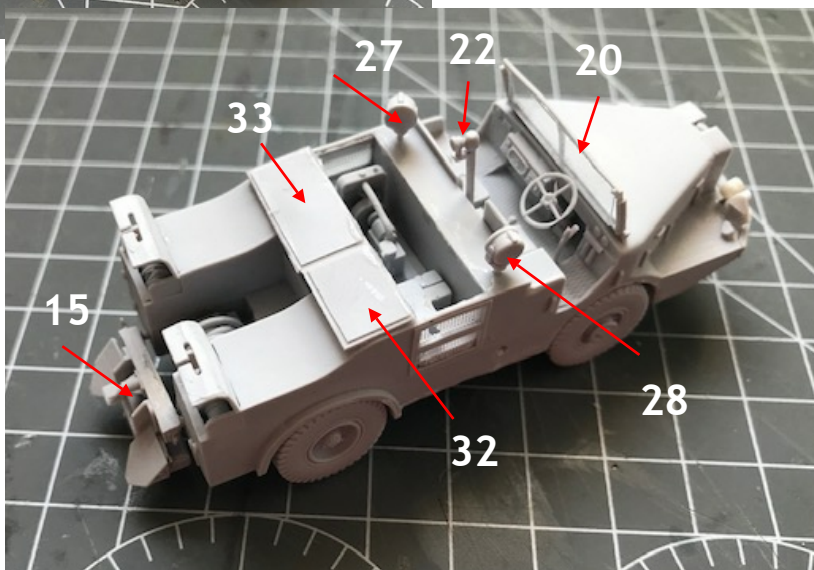

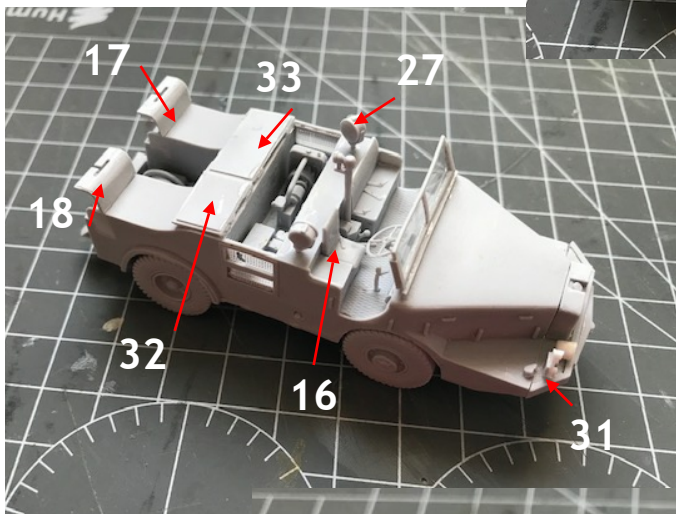

Fit headlights Part 29 and 30.
Fit warning towing bracket 31. Note we do not include the Towing bracket.

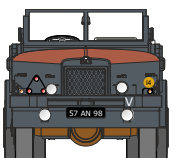

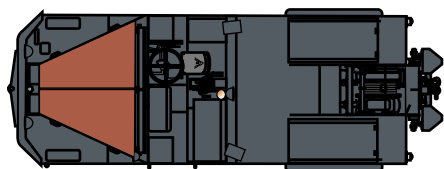

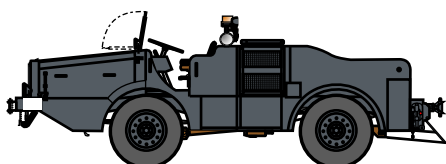

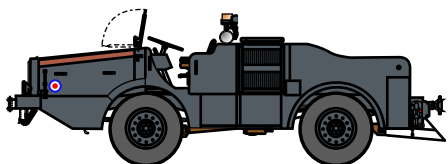

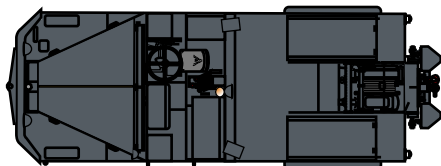

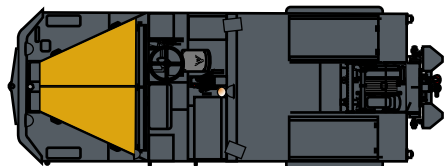

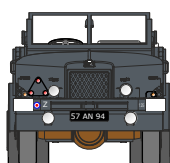

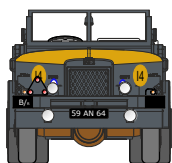

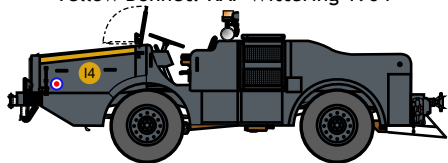

Fit windscreen 20 and glazing.
Note, paint windscreen before Fitting the glazing.

6

Stage 6 - Finishing and Detailing

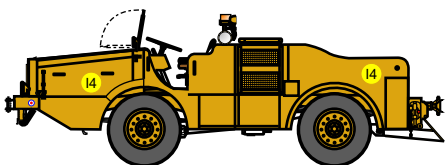

Standard RAF Blue Grey overall with Golden Yellow Bonnet. RAF Wittering 1964

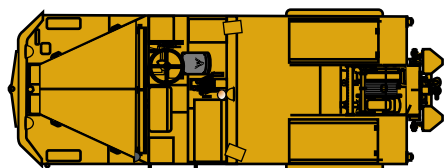

Above: Standard RAF Blue Grey overall. (Introduction scheme) RAF Seletar 1955

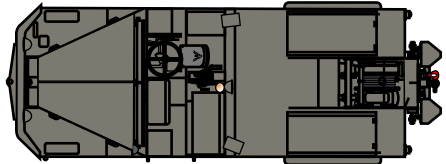

Left: Standard RAF Blue Grey overall with Post Office Red Bonnet. RAF Lyneham 1957

INSTRUCTIONS

- Remove any flash by gently snapping off, or cutting with a scalpel and then lightly sanding.
- Only use Super-glue or a two-part epoxy glue to fix parts.
- Gluing is easier if mating surfaces are slightly sanded to roughen the resin before gluing. Also clean off any dust before gluing.
- Before painting, thoroughly wash all parts in warm water with detergent.
- We recommend the application of a base coat in a light colour to show any blemishes prior to final painting.

WARNING & SAFETY!

- These parts are moulded in polyurethane resin. Please take care when sanding and cleaning up the resin by wearing a dust mask or other protective breathing device to avoid inhalation of the dust particles.
- Wash hands, resin parts and the work surface after sanding resin.
- When using Super-glue or two-part epoxy glue, please take precautions to avoid contact with skin and eyes.
- It is also advisable to wear a mask to avoid breathing in any fumes from the glue or work in a ventilated room.
- The use of barrier creams on hands or wearing disposable gloves, and working in a well ventilated area, is strongly recommended.
- Not suitable to children under 14 years of age.

Thank you for purchasing this Air-Graphics product which forms part of a range of accessories, conversion sets, decals & kits all 1/72 Scale.
