Alex,

No way you convince *Deplorables* in uniform - American cops (Hillary nemesis) refugees wield any value. They no PhD; I have. You still entertain them inside Cornerstone - setting up frontline inside your organization: Your undoing last time. I won't hold it against you; they fund your employer - Cornerstone.

Still, this was not to happen if you allowed me use "nigga" on your staff. I always tell people - no disease worse than youth. Even worse disease - American, period. You young. I knew you were my ticket out of Cornerstone. I wanted out. It did not register in your radar. As long as it seemed gross to use "nigga," I doubled down. In rage, you dispatched me from Cornerstone: short leash out the window. With only long leash (American law), I went after infidels - those crooks in government. I could have gone after that MPD nigga. Instead, I smoked Montgomery County fire chief out of his home. His neighbors fleeing too - "For Sale" signs every other home - more economic activities and tax revenue for your salary and those cops. Then again, who used who? You got paid; I got

my freedom from Cornerstone - win/win 🤘🤘

PhDs teach. That's all they do. Social Security Disability inquires patient's interaction with provider, including discussions about willingness to work. Previous psychiatrists never brought it up. It's always my desire to teach, especially now that am PhD. The reality is I need to relearn how to relate with females and Americans - generally. For example, it took some accepting - "this is my life till we part," my wife concluded.

After a few years of living together, it is natural phenomenon, couples don't have to verbally express thoughts to communicate. Telepathically, my wife always catches my mind drifting towards her pussy.

In public, I strain to push my mind away from clutching onto women's pussy. I remember this happening when Michele Obama came on TV.

Now place me in classroom teaching high school students, whites, blacks and in-between. My recent Psychiatrist, a Muslim, when my condition worsened, I simply stopped visiting, since 2019 to be exact. See, Americans and Muslims, they are special spiritual beings, no express communication required. Telepathically, they catch Peeping Toms. Evidently, I feared Dr. Bangura would not miss catching my mind wondering into her private parts.

### How did it get to this level?

It was one screw up after another - something Americans are extremely good at. Year 2009: Dr. Christopher Richardson wanted none of it. I insisted he helped stop American police torturing me (around NYC) with sirens, ambulances, fire trucks, and police cruisers. He ordered I don't drive my NYC taxi on return to meet him at Harlem Hospital Center. I lost 3 weeks of my life languishing on 10th floor of crazy wing.

That treatment pales in comparison to my experience with my own niggaz. I pressed Al Sharpton, help stop the white man from trying to kill me. Nigga preferred eliminating me, instead. Every Saturday meeting at his National Action Network, he sat me next to Staten Island slumlord - son of former police captain, Hunter. Police took note, foiled the scheme - pulling Hunter over for broken taillight, finding loaded gun, and other illicit.

I believe I belong in the classroom. First, I need the following help:

1. Regain my breathing reflexes. As a result of the trauma of daily torture by American police - anxiety disabled my breathing. I must remember to suck in air. You have to live it to appreciate the suffering.
2. Relearn to live with women or females. I constantly pull my mind away from women's private parts.
3. Inability to breathe creates opportunities for all kinds of emotional, social, psychological, and physical challenges - not for this page or email - see attachment.

God is Great! **الله أكبر**

Madam,

About Easter (Monday) meeting, possible we reschedule? I did not read from you. I assumed my email didn't hit your inbox - or something. Let me know the way forward. In the interim, am headed to NYC to open a new front. As you know I located Montgomery County fire chief crib and promptly sent him packing. Half his neighbors selling and running away as well. NYC front: This is what I hope to replicate.

Your refusal to meet me had no influence on NYC decision. Actually, it's right time coming just while they lick fresh wounds – hammer on hot iron. If smoking fire chief out of his home was bitter revenge, a similar fit on FDNY fire chief would even be more thrilling. Initially, Bloomberg and his FDNY - NYPD gang created the mess. Chief Manger and Montgomery County firemen simply took over from NYC gang. In between and in 2008 – 2009 I visited Adams in his 100 Blacks in Law Enforcement (nonprofit) office. I also visited Al Sharpton in his Harlem office. I told them white man trying to kill me. Both men projected "What-is-in-it for me" attitude. They had no skin in the game – I was to be the white man's lamb.

You might scream - wrong recipient, but I copied this to FBI. The infidels always provided me cover as I kicked crooked-asses. Just for your information - I get undercover protection whenever driving by homes of government crooks. NYC is Mafia gangland from the mayor down to fire chief to police commissioner. I am gonna need every FBI (undercover) protection to stand a chance. More in PDF attachment.

Not to forget - I remain hopeful you will reschedule the meeting to discuss disability support services - specifically the funds for setting up auto repair shop.

Dear DSS,

I request appointment rescheduling due to unforeseen events. Time allowing, I like us to meet the following Monday (April 18) instead.

Excuse my choice of email account for communication. The college email failed. As now, this was the case with my Automotive Tech. Instructors. They understood. Obwok222@Gmail.com and another email became dependable alternatives. In due course - I expect DSS to sort out issues with my college email account.

Y'all need to learn to keep crooks (American police and government) out of my relationship with Montgomery College. That Automotive Tech. Dean - Mr. Edward Roberts entertained police. They turned him into some kind of toilet paper. While under police influence (DUI) Edward dismissed allegation police trying to kill me. He only sobered-up when I told him I smoked Montgomery County fire chief out of his home - causing his white neighbors to scramble for the exit - "For Sale" signs in every other home in fire chief development. See PDF attachment!

Dear Madam,

The problem is Obama and Al Sharpton - but you are white (based on name) - hence better customized to solving problems than them niggaz.

Automotive Technology best managed hands-on! Only way out - my own auto repair shop. On recent visit to Gaithersburg repair shop - African owner - I found out is married. Very stressful environment for me.

Couple on evening stroll - porn. Honeymoon - pussy. Engaged - porn. Today (in class) friend confided to me his mother is Filipino, his father Vietnamese. Thought crept into mind - sucker product of adult porn. I think the

same every time TV-talk: Obama, Kenyan father and American mother. White man tortured me entire 12 years nigga ruled the planet - see attachment.

This was not my primary path. I wrote emails to college president and department dean. Nigga before this infidel might have been more repsonsive. But then again - niggas in the president's office just sitting on my request for funds; "he already sold us - why pay him rat's behind" - their attitude.

Arguably, this is major league plate for little league (Disability Support Services) deliberation. In Ugandan socker - "mpangende (just kick it up there) strategy" hits the net 50% of the time. Nothing to lose bringing this matter to your attention. I can't emphasize it enough - see attachment.

Madam;

In America - staff recruitment is serious business. The wrong person and class in uproar! I respect my professors very much. For Professor Crowe - Automotive tech., he does not just project teachings - hearsays about Egyptians, Arabs, and multiculturalism. As son of diplomat, he experienced - firsthand, these cultures. The rest of the shit around him are just cultural babies - like 99.99% of Americans. Society benefits a lot from culturally illiterate folks - fools. They don't ask too many questions - giving thieves - politicians like Trump elbow-room to steal. Problem is, police working round the clock to kill me. Last thing I need is cultural babies - Americans playing with me during lab assignments. There is no reason asking me to go park a car with faulty windows. I came back to be asked if I rolled-up all the windows. That aside - I fear police infiltration and gassing me (remote) in that car - as you will read below.

Then:

Jararaka - am fighting battles way bigger than the word "Big." Fighting American government is no joking matter

Sometimes I just withdraw from social networking (Facebook and time thieves) so I get deeper messages from St. Michael

I got poisoned by way of gassing in my car. This was this past Tuesday (March 22, 2022). I

embarked on unceasing prayer 🙏 to St. Michael

By Friday night - Saturday morning, my headache was an afterthought

If I was engaged in chatters, mental and physical activities – I would not have connected with St. Michael the way I did. This may be better understood by MBA advisor to corporate executives: Less is More. The less workload – the more time for corporate strategy and visionary duties!

Now I have to start anticipating the government's next move because they have withdrawn the Mallick Mechanical Contractors' trucks used to gas me at Rockville and Gaithersburg fire houses. They talk of Putin hiring private assassins and mercenaries to hunt down Ukrainian leaders – just wait till Americans try to take you down

Remember - the government is merely playing defense

They know I must get compensation for over 10 years they tortured me

To pressure the government - I chased fire chief from his home

I also shut down a few private businesses - bars with outdoor dining

I also shut down two volunteer and SSL programs in about 3 fire houses of 4-Corners, Rockville, and Gaithersburg

See - every American knows what the government has been doing to me

They know the government wants me dead  
So - all I have to do is drive by the fire chief's home and he runs away  
Now, over half of fire chief's neighbors are selling their homes and moving out  
The goal is to pressure zungu into calling me and paying me off  
Or to soften them to the point I find a lawyer - go to court and government no show defense of its actions  
I even forced whole police barracks (specialized unit – Sheriff's Deputies) to change their parking; they stopped parking their cruisers in front of their Rockville Circuit Court - jails  
I will send you photos of me dressed like Masurubu that has zungu on back foot for his life  
On construction sites – white engineers take cover when police alert them am headed in their direction or their work area  
Call it Luwero Triangle, USA: Relations between me and police  
All I have is St. Michael  
Police have everything, except St. Michael  
Let the best team win!

Earlier:

Americans of all stripes operate funeral-business mindset; at least it strikes as so.  
Mother Seton Parish - Germantown - Father Lee: Lie #1 - Doc! We never got the email. What was it about anyway?

Dr. Ekakoro: American police want to kill me. I don't want to carry my cross into another business. I decide, I operate own Auto Repair shop. I just need recommendation letters from as many credible houses of worship, and others for loan underwriter consideration.

Father Lee: Lie #2 - I don't believe police out to put knees on your neck. This also is a lie because church administrators collude with that hip of Germantown corruption, AKA 5th District Commander to monitor my ins and outs.

Dr. Ekakoro: Father! *Believing* is an American right. Unless in Russia or black male, you are within your right not to believe my claim of danger from police.

Failing to get under my skin - Father declined my demand to know his name. Carol (the receptionist) too "forgot" Father's name. They knew they would be fodder for the next email dispatch :).

Just like a 5th grader must provide mental image of her rapist - I dug the pedos (unmeant because Priests are personification of Jesus - and am a practicing Catholic) out from Parish website: <https://mothersetonparish.org/home/staff>

I want to speculate, reasons for Father Lee's insensitivity and disinclination on recommendation letter:

1. Unprofessional *nigga* description of Chief Contee, Chief Jones, Commander Griffin, Mayor Adams, Mayor Fenty, and Rev. Sharpton.
2. Redneck characterization of Chief Manger, the two former fire chiefs - Lohr and Bowers, and that bitch - Chief Lanier.

3. Ill-conceived smoking of Montgomery County fire chief out of his home.

4. Disruption of SSL and volunteer programs at the two fire houses of Rockville and Gaithersburg.

Father, your intransigence was graceless. Reading material contained in the attachment, I wondered what you thought these niggaz and infidels were thinking! Will it take a revolution to get responsive governments? That is not why am in America. I don't see one soul fly two million miles into a can of worms and burst a gut disinfecting Americana.

I will state it again: I need a letter of recommendation to secure funding for my own auto repair shop - self employment.

Historically, I am unemployable. Relentless police behavior undermines prospective employers' approach to me. In one of many instances, police pressured my CPA to serve me poison-laced tea and then beer at a later date. I believe it was payback for "smoking" the fire chief out of his home,

This (even) after assuring these Americans - fire chief could move back to his home. They just won't take my word for legal tender. Please see attachment!

All these blocked messages: spineless niggaz occupy leadership slots - deny opportunities to would be heroes - and the result is America. As more niggaz gumshoe into leadership - watch America become the new Africa - hopeless:

## **America is a Sick Country Beyond Redemption**

NB: First - NYC Commissioner spent man-hours, gas, diesel, and every stupidity in the white man's arsenal.

Second - Montgomery County - Chief Manger - took over the torture scheme, ambulances, fire trucks, fire engines, police cruisers, undercover, and poison in McDonald's, Penerima Bread, Whole Foods, Starbucks, and all manner of mom and pop stores

Third, I returned to NYC to conduct taxi-driver job stress research as part of my PhD dissertation project. Unlike Commissioner Kelly before this fool, O'Neill preferred all of the above plus undercover and poison. They took over kitchens in Far Rockaway and served me poison-laced chicken.

Fourth - Monsignor (St. Mary Rockville) rebuke. I told Monsignor - past 10 years police been trying to kill me - please help. Flanked by two government agents, Monsignor gathered courage - "Doc - go your embassy, have them pay your one way flight to Kampala."

Fifth, Rev John of St. John Baptist Church - Columbia, Maryland. "Bro - the white man trying to eliminate me - I forced the fire chief from his home as payback - please help." Any child saw the urgency of my situation - but this grown Minister of the Word saw a disposable refugee. While gesturing - Rev murmured - "call me!"

And on and on and on - stupidity, irresponsible children (AKA grown men) and blood thirsty cops at every turn.

Now am demanding \$22 million compensation - everyone is gone into hiding. Even the FBI refuses to respond to my plea for help. They would rather wait get fired like Michigan Simone Biles, gymnast screwup agents

Visit us at ==> <https://lamdogigroup.com/>

**In the end, I call upon Chief Manger to resign.**

**First, Commissioner Kelly, NYC screwed up.**

**Add insult to injury, Chief Manger really messed up big time. While leading by misleading, zungu conned police and firemen into believing a Straight-A PhD Student imminent threat – chasing me with emergency vehicles, poisoning me at McDonald's, Penerima Bread, Whole Foods, Starbucks, not to mention blanket, undercover surveillance – see attachment.**

**The following conspirators owe me \$22 million: Chief Newsham, Chief Contee, Chief Jones, Chief Aziz, Chief Hamill, and Chief Myers.**
