Al-Hatim Decor Ltd, with close to 20 Years of experience in the Interior Design & Construction Industry, we are amongst the top pioneers in revolutionizing the fit-out industry by incorporating true Turn-Key Fit-Out Projects.

We have set the pace and high-quality standards along with perfectionism in all our projects, through modern designs and combining with a splash of bold & bright colours to add life to your space.

With constant research on new and trending modern finishes, globally, we take pride in introducing the latest textures and products through our bespoke projects.

About Us

With a gifted mind, even before Al-Hatim Decor Ltd was registered as a business, Our founder, Mr. Taher Dodh, had a magical gift to see a space and transform it into, not just a home, but a dream home.

Slowly this passion turned into DIY projects and then extended to doing one feature wall for family and friends. With the motivation to redefine every space, Al-Hatim Decor was born in 2007.

Starting with doing residential makeovers, we slowly and steadily grew over years to take up bigger projects where a complete Turn-Key Solution was required.

With Interior Design as our key strength, we offered our clients everything they could think of when doing a turn-key fit-out of their new office/home/retail store. From security systems to HVAC solutions, we gave it all under one roof.

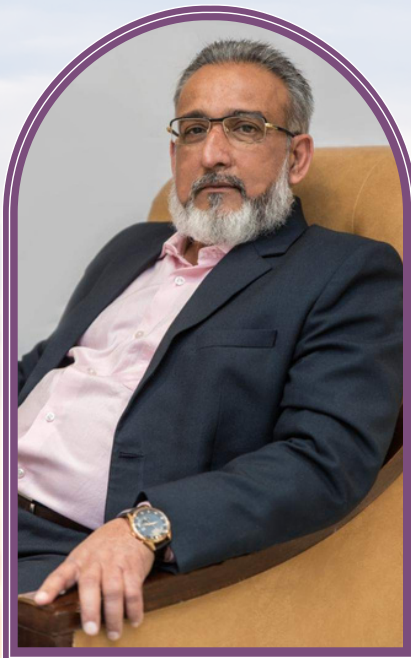

This was the beginning of the new concept in Kenya, as pioneers in this solutions provider, Al-Hatim Decor had an edge thanks to the use of modern technology and the latest innovations to provide our clients with state-of-the-art solutions for all their needs.

Our Founder, went all out to ensure that our clients got more than what they expected, that is where we excelled in exceeding customer expectations. Value for Money is what each project boasted when compared to the price quoted, bringing our customers closer to us.

Your best Interior Designer Contractors In Kenya.

Tree of Inspiration

Nature is of utmost importance to humankind; We seek both physical and mental well-being by connecting with our surroundings. The modern work environment is stressful and thus, by bringing in green into your office space, we are resetting the stress levels and increasing efficiency in our work all at the same time giving you good health!

Green Offices are our special projects and we take pride in executing green living & working spaces.

Starting by ensuring that we are utilizing all available natural lighting & ventilation, through green designs and building using eco-friendly construction materials, all at the same time incorporating nature in your daily work & home life.
