

Global Trading Partner

Architectural Intent. Delivered.

Reliance Fenestration: Global Trading Partner
for Advanced Architectural Materials.

The Standard is No Longer Enough.

Modern buildings demand more than product supply. They require systems thinking, regulatory awareness, and disciplined execution across borders.

We were established to serve projects where performance, durability, and compliance are critical.

We Are Not a Catalogue. **We Are System Architects.**

We do not act as a catalog. We act as a system architect.

A Catalogue Offers...

Products.
Volume.
Transactions.

A System Architect Delivers...

Outcomes.
Judgment.
Partnership.

Our role is to simplify complexity, reduce procurement risk, and translate your intent into deliverable reality.

Your Bridge to Performance, Predictability, and Precision.

Meticulous Sourcing

Leveraging South Korea's connection to renowned global manufacturers to hand-select materials that meet stringent global performance and design requirements.

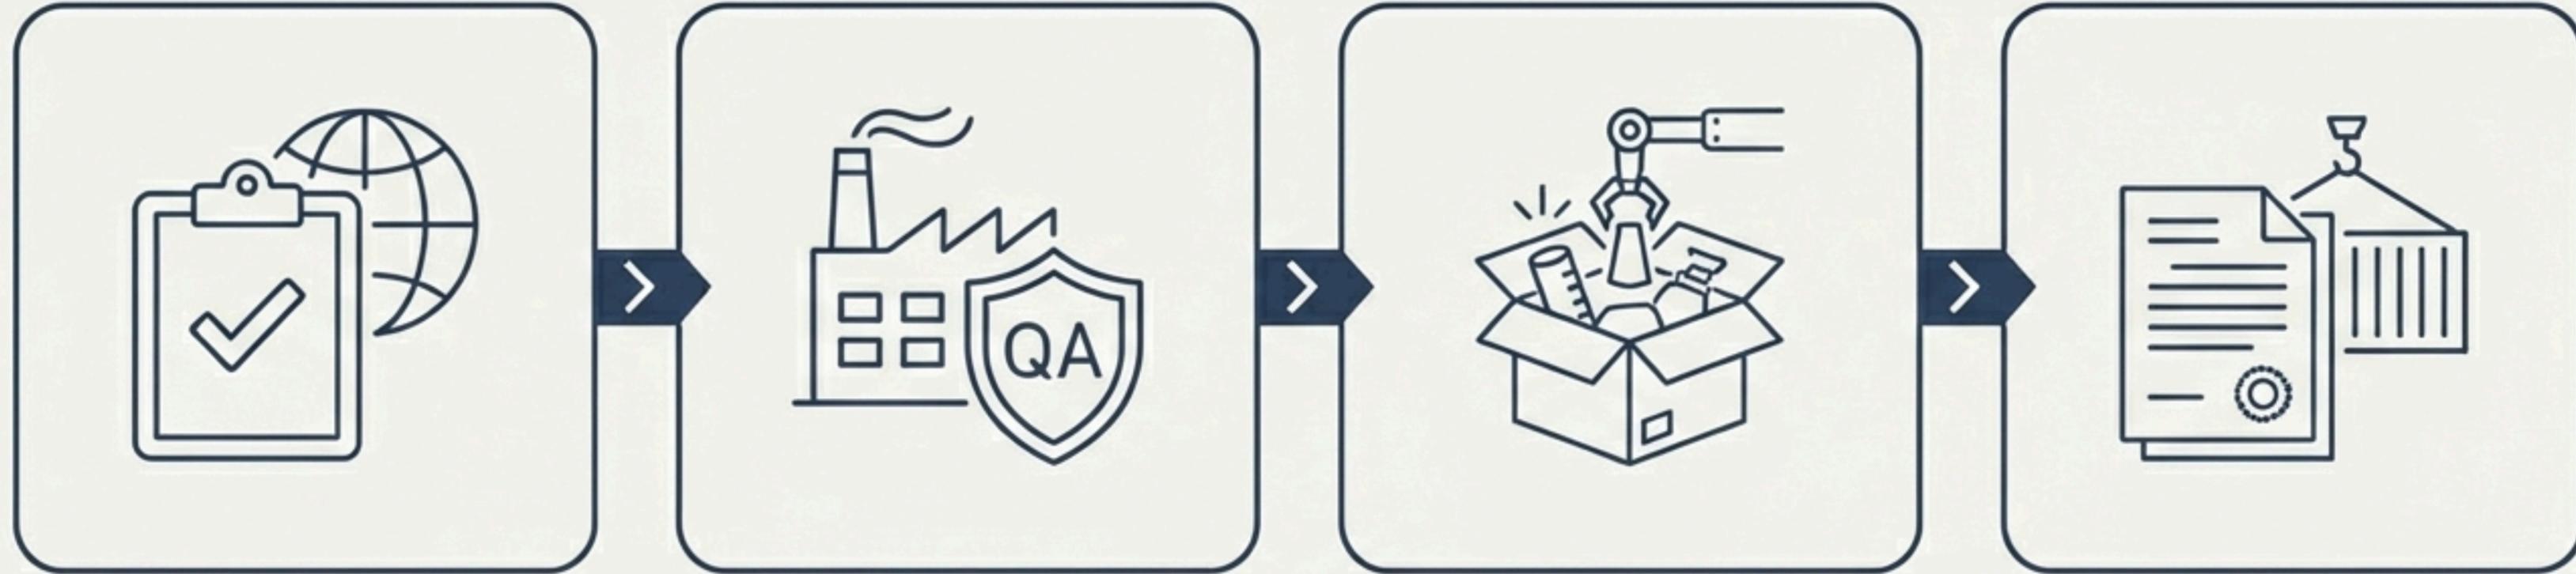

Logistics Mastery

We manage the entire supply chain, from factory floor to job site, simplifying complex customs and international shipping for a predictable delivery schedule.

Dedicated Technical Consultation

We act as a dedicated extension of your procurement team, providing expert consultancy to reduce risk and ensure project specifications are met.

Disciplined Execution at Every Step.

Global Sourcing & Due Diligence

Vetting suppliers and materials to ensure all certifications and specifications are met.

Quality Assurance (QA) Management

Managing factory inspections and third-party checks to guarantee quality and consistency.

Customised Packaging & Consolidation

Overseeing packaging standards and consolidating shipments for safe, optimised shipping.

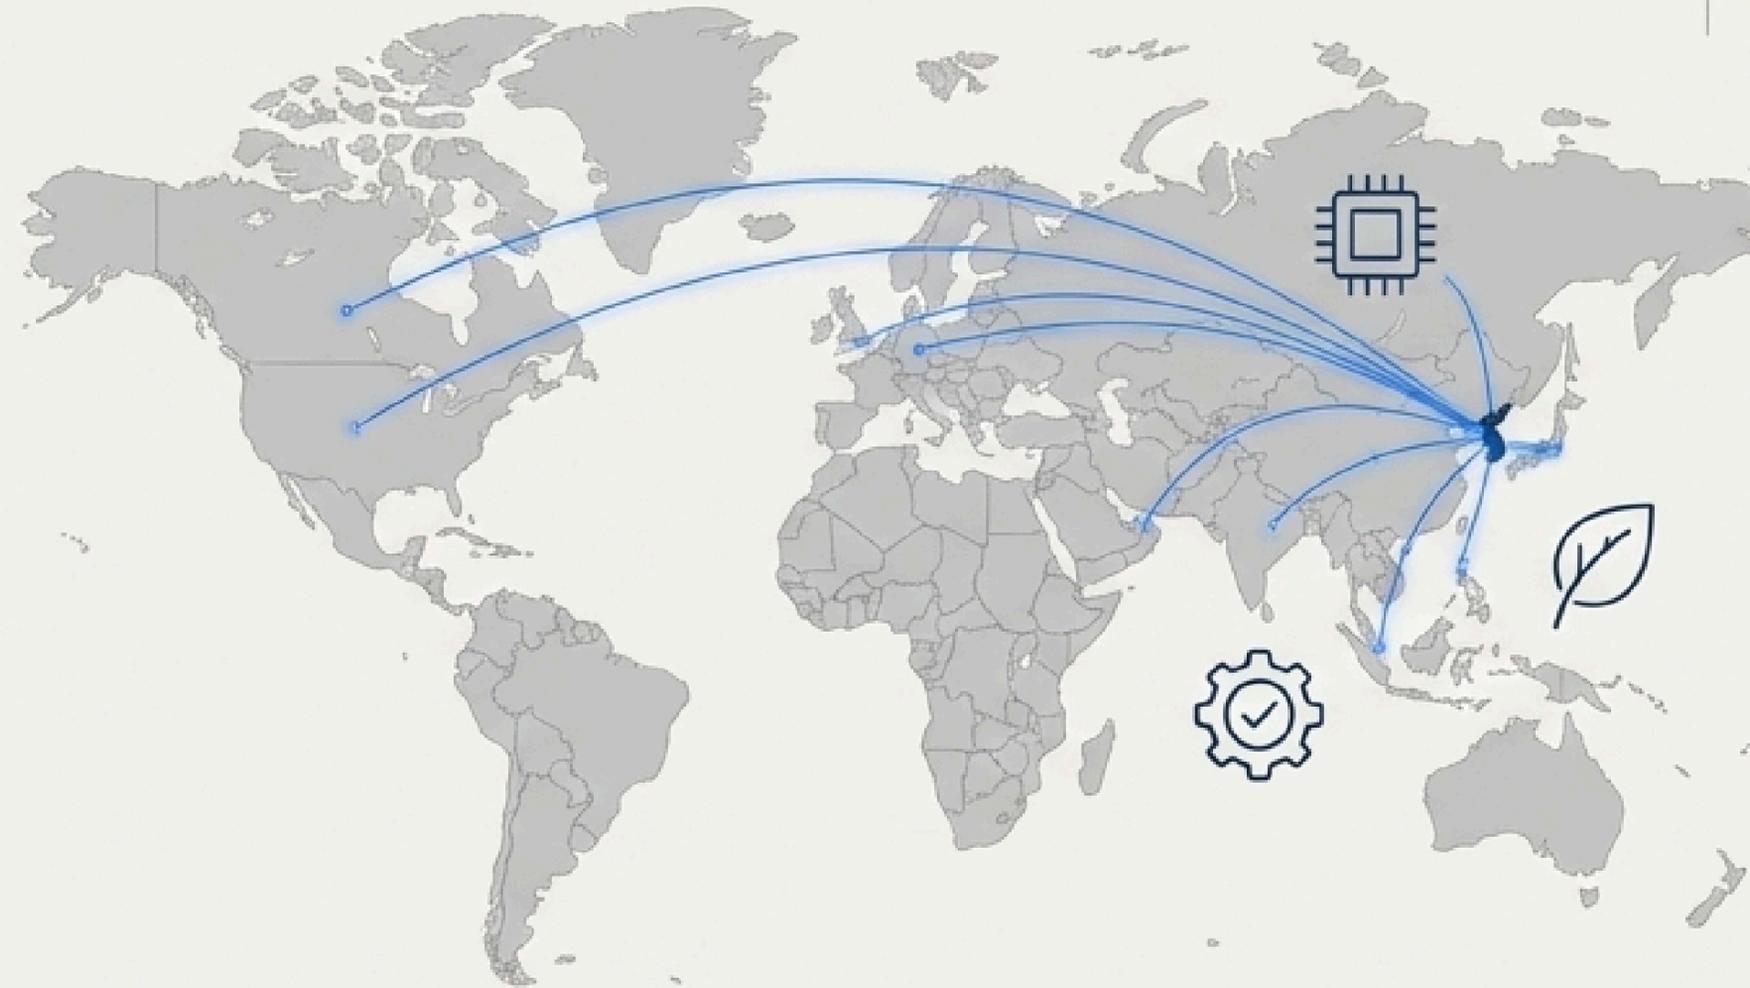

Logistics & Documentation

Handling all export/import documentation, customs clearance, and coordinating reliable global freight.

Sourcing from the Epicentre of Technological Excellence

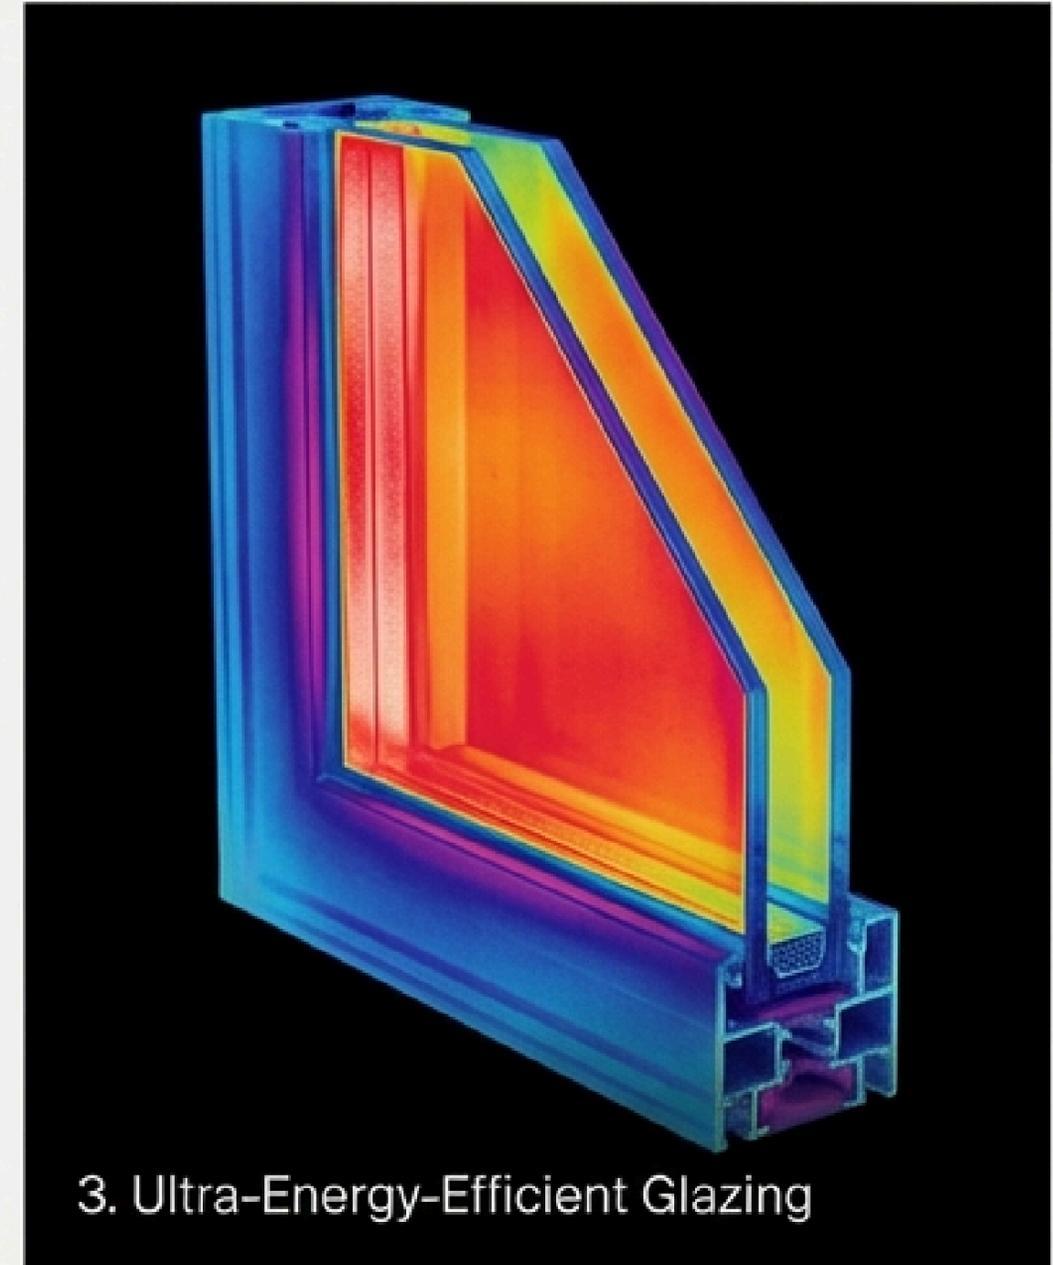

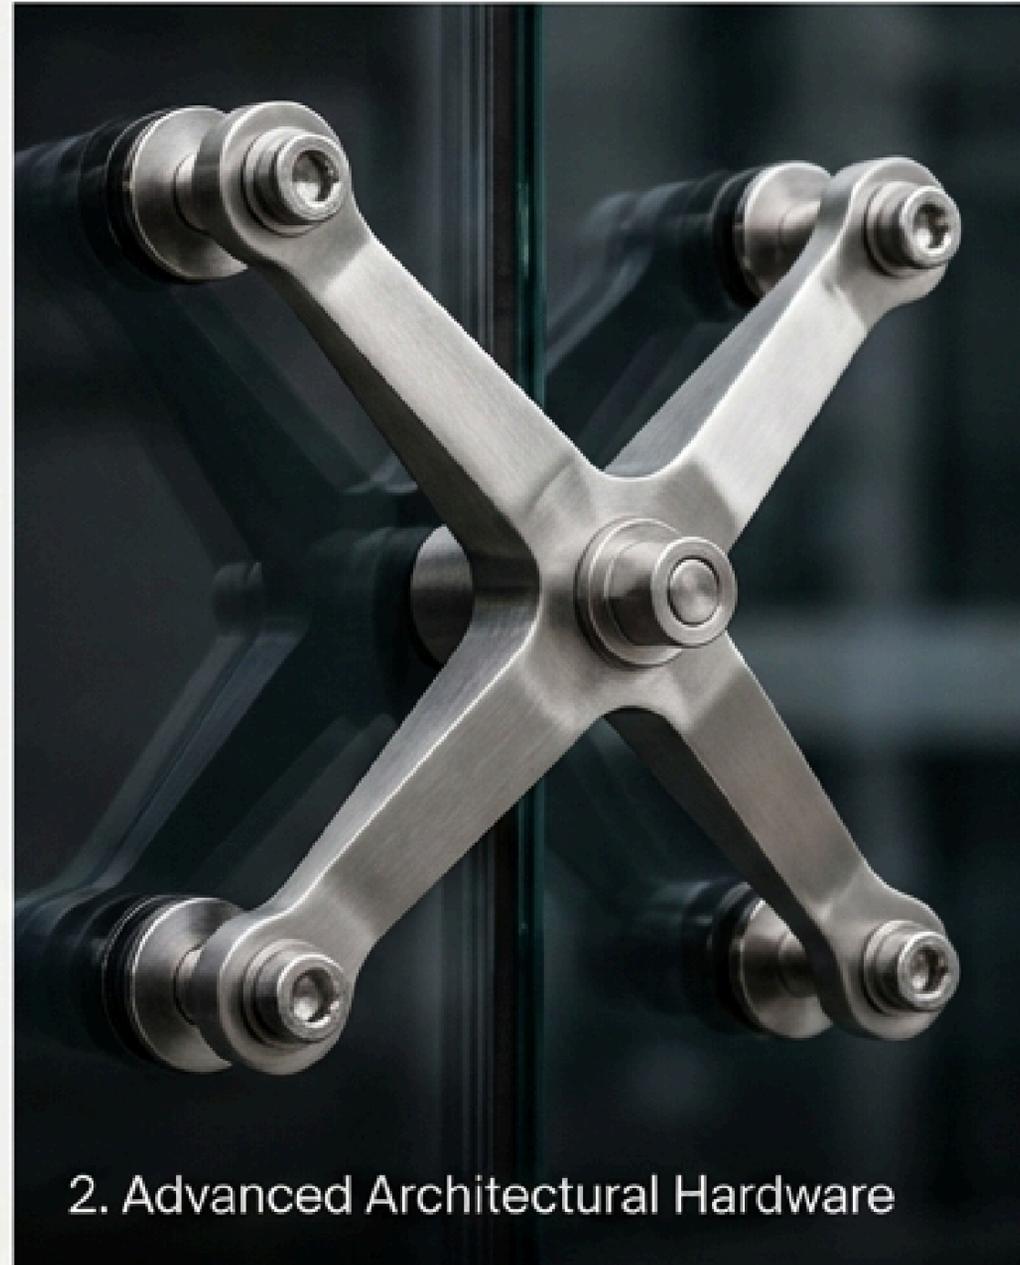

South Korea is a global innovation hub with direct connections to cutting-edge Asian and European manufacturers. We harness this technological edge for your project.

- **Advanced R&D:** Access systems developed with the latest thermal break technology, soundproofing, and smart features.
- **Stringent Quality Control:** Partner with manufacturers known for precision engineering, ensuring compliance with the strictest quality standards.
- **Sustainable Sourcing:** Prioritise materials and systems that contribute to green building certifications and long-term energy efficiency.

A Curated Portfolio of High-Performance Systems

We are a global trading partner for a full spectrum of high-performance architectural materials, organised into three core categories.

Deep Dive: Luxury Fenestration Products.

Highly advanced aluminium and PVC systems, including multi-track and lift-and-slide doors, swing and pivot doors, as well as a wide range of window solutions for residential and commercial projects.

Key Features

- Thermally efficient system design, durable and aesthetic hardware applications, minimal sightlines, and precise, high-quality manufacturing.

Deep Dive: Advanced Architectural Hardware.

A comprehensive portfolio of high-performance architectural hardware systems engineered for structural integrity and operational excellence across curtain wall, façade, door, and window applications.

Product Lines

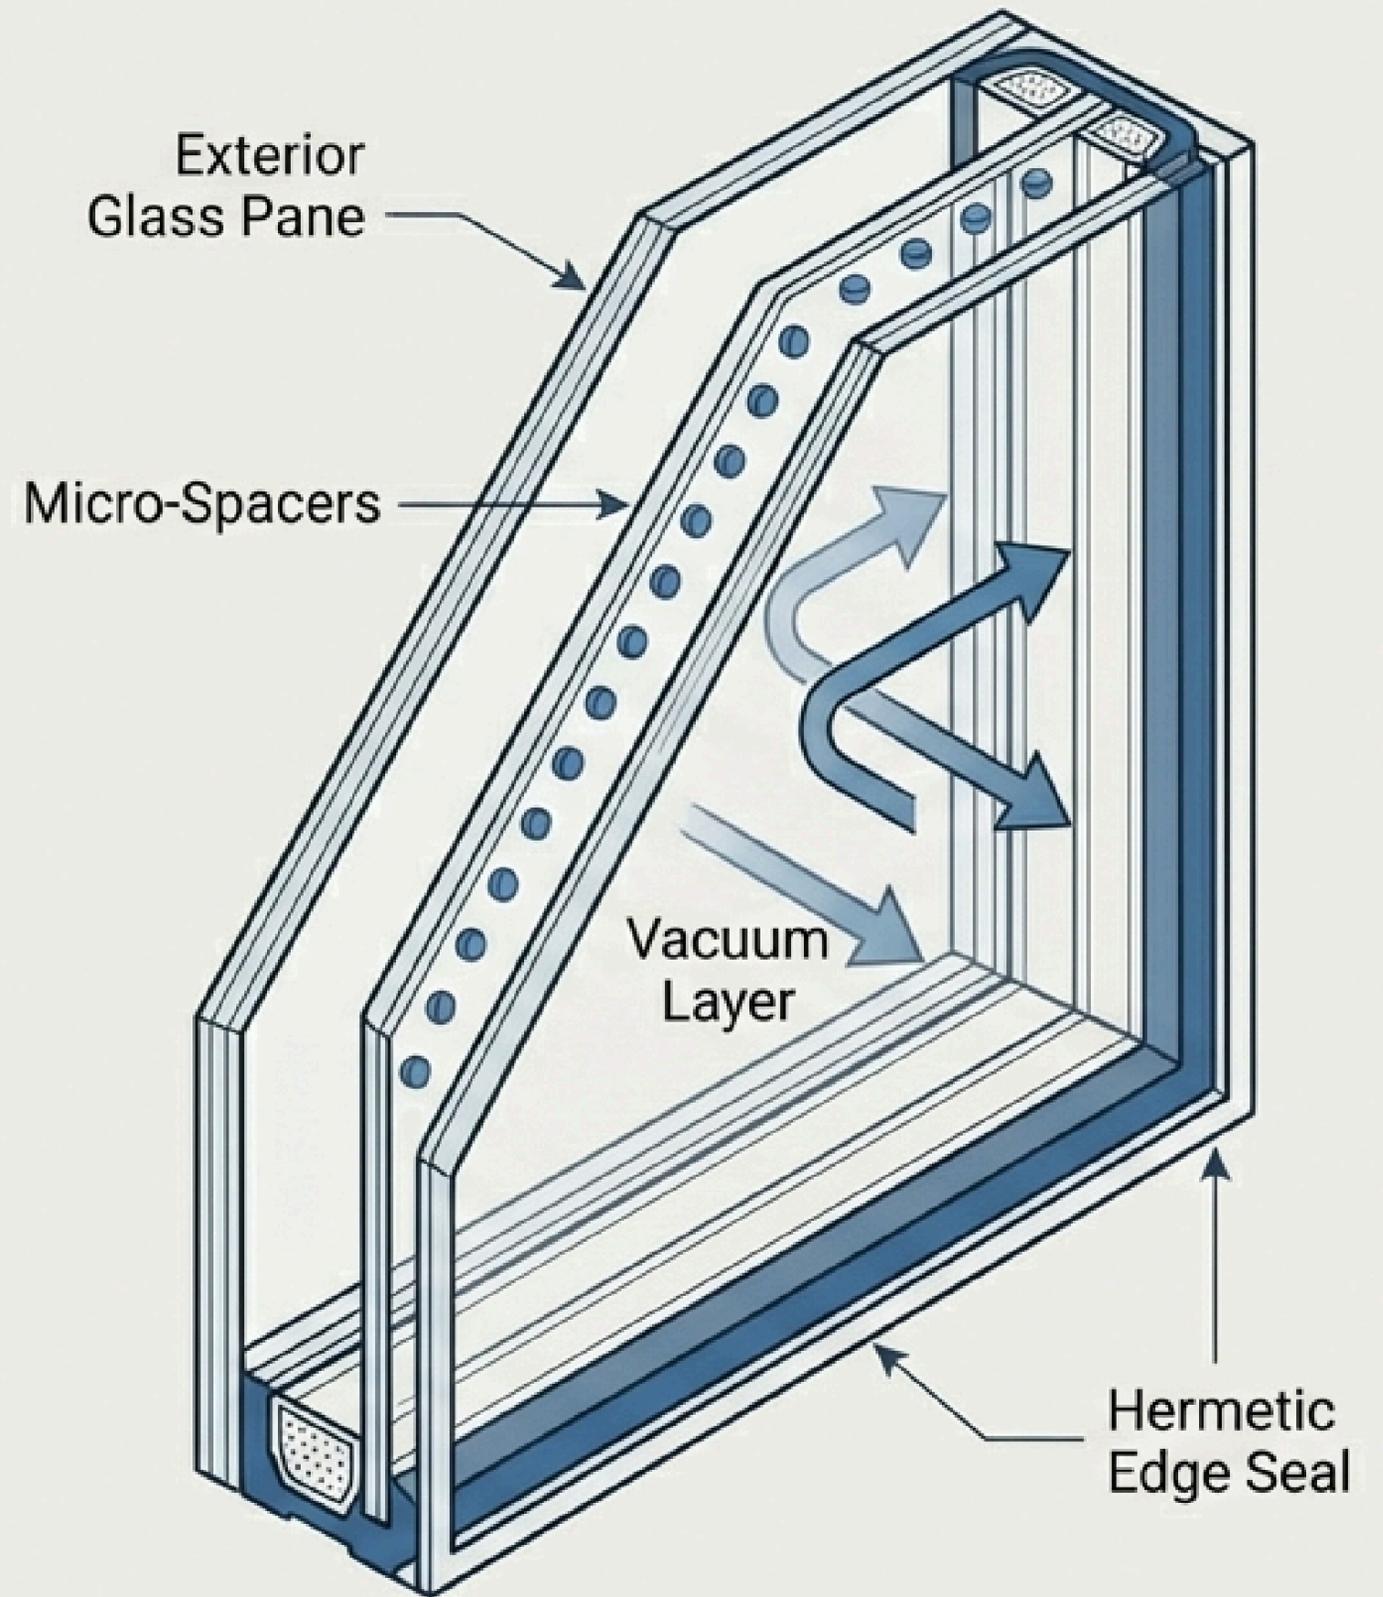

Includes Curtain Wall & Façade Solutions, Door Hardware & Entrance Systems, Window Hardware & Operating Systems, Railing & Glass Accessories, and Smart & Automatic Systems.

Deep Dive: Ultra-Energy-Efficient Glazing.

Vacuum Insulating Glass (VIG) solutions delivering superior thermal performance for high-end residential and commercial projects.

Key Benefit

Driving carbon neutrality and significantly reducing energy costs through advanced energy-saving technologies.

Guided by Decades of Global Expertise.

Reliance Fenestration is founded and led by President Lim, Jaekeun. With over 18 years of hands-on experience, his career has been built at the intersection of technical understanding, international sales execution, and strategic market expansion.

A Unique Combination of Core Strengths

North American Market Mastery

Over a decade leading sales strategies for high-end projects in the US & Canadian markets.

Cross-Border Partnership

Effectively navigating the cultural, technical, and commercial gaps between global manufacturers and local markets.

Strategic Market Entry

A proven ability to build markets for new technologies like high-performance aluminium systems and VIG.

Entrepreneurial Vision

A business owner's understanding of risk, margins, branding, and long-term value.

Deep Technical Acumen

Bridging the gap between architectural intent and manufacturing reality, engaging confidently with architects and engineers.

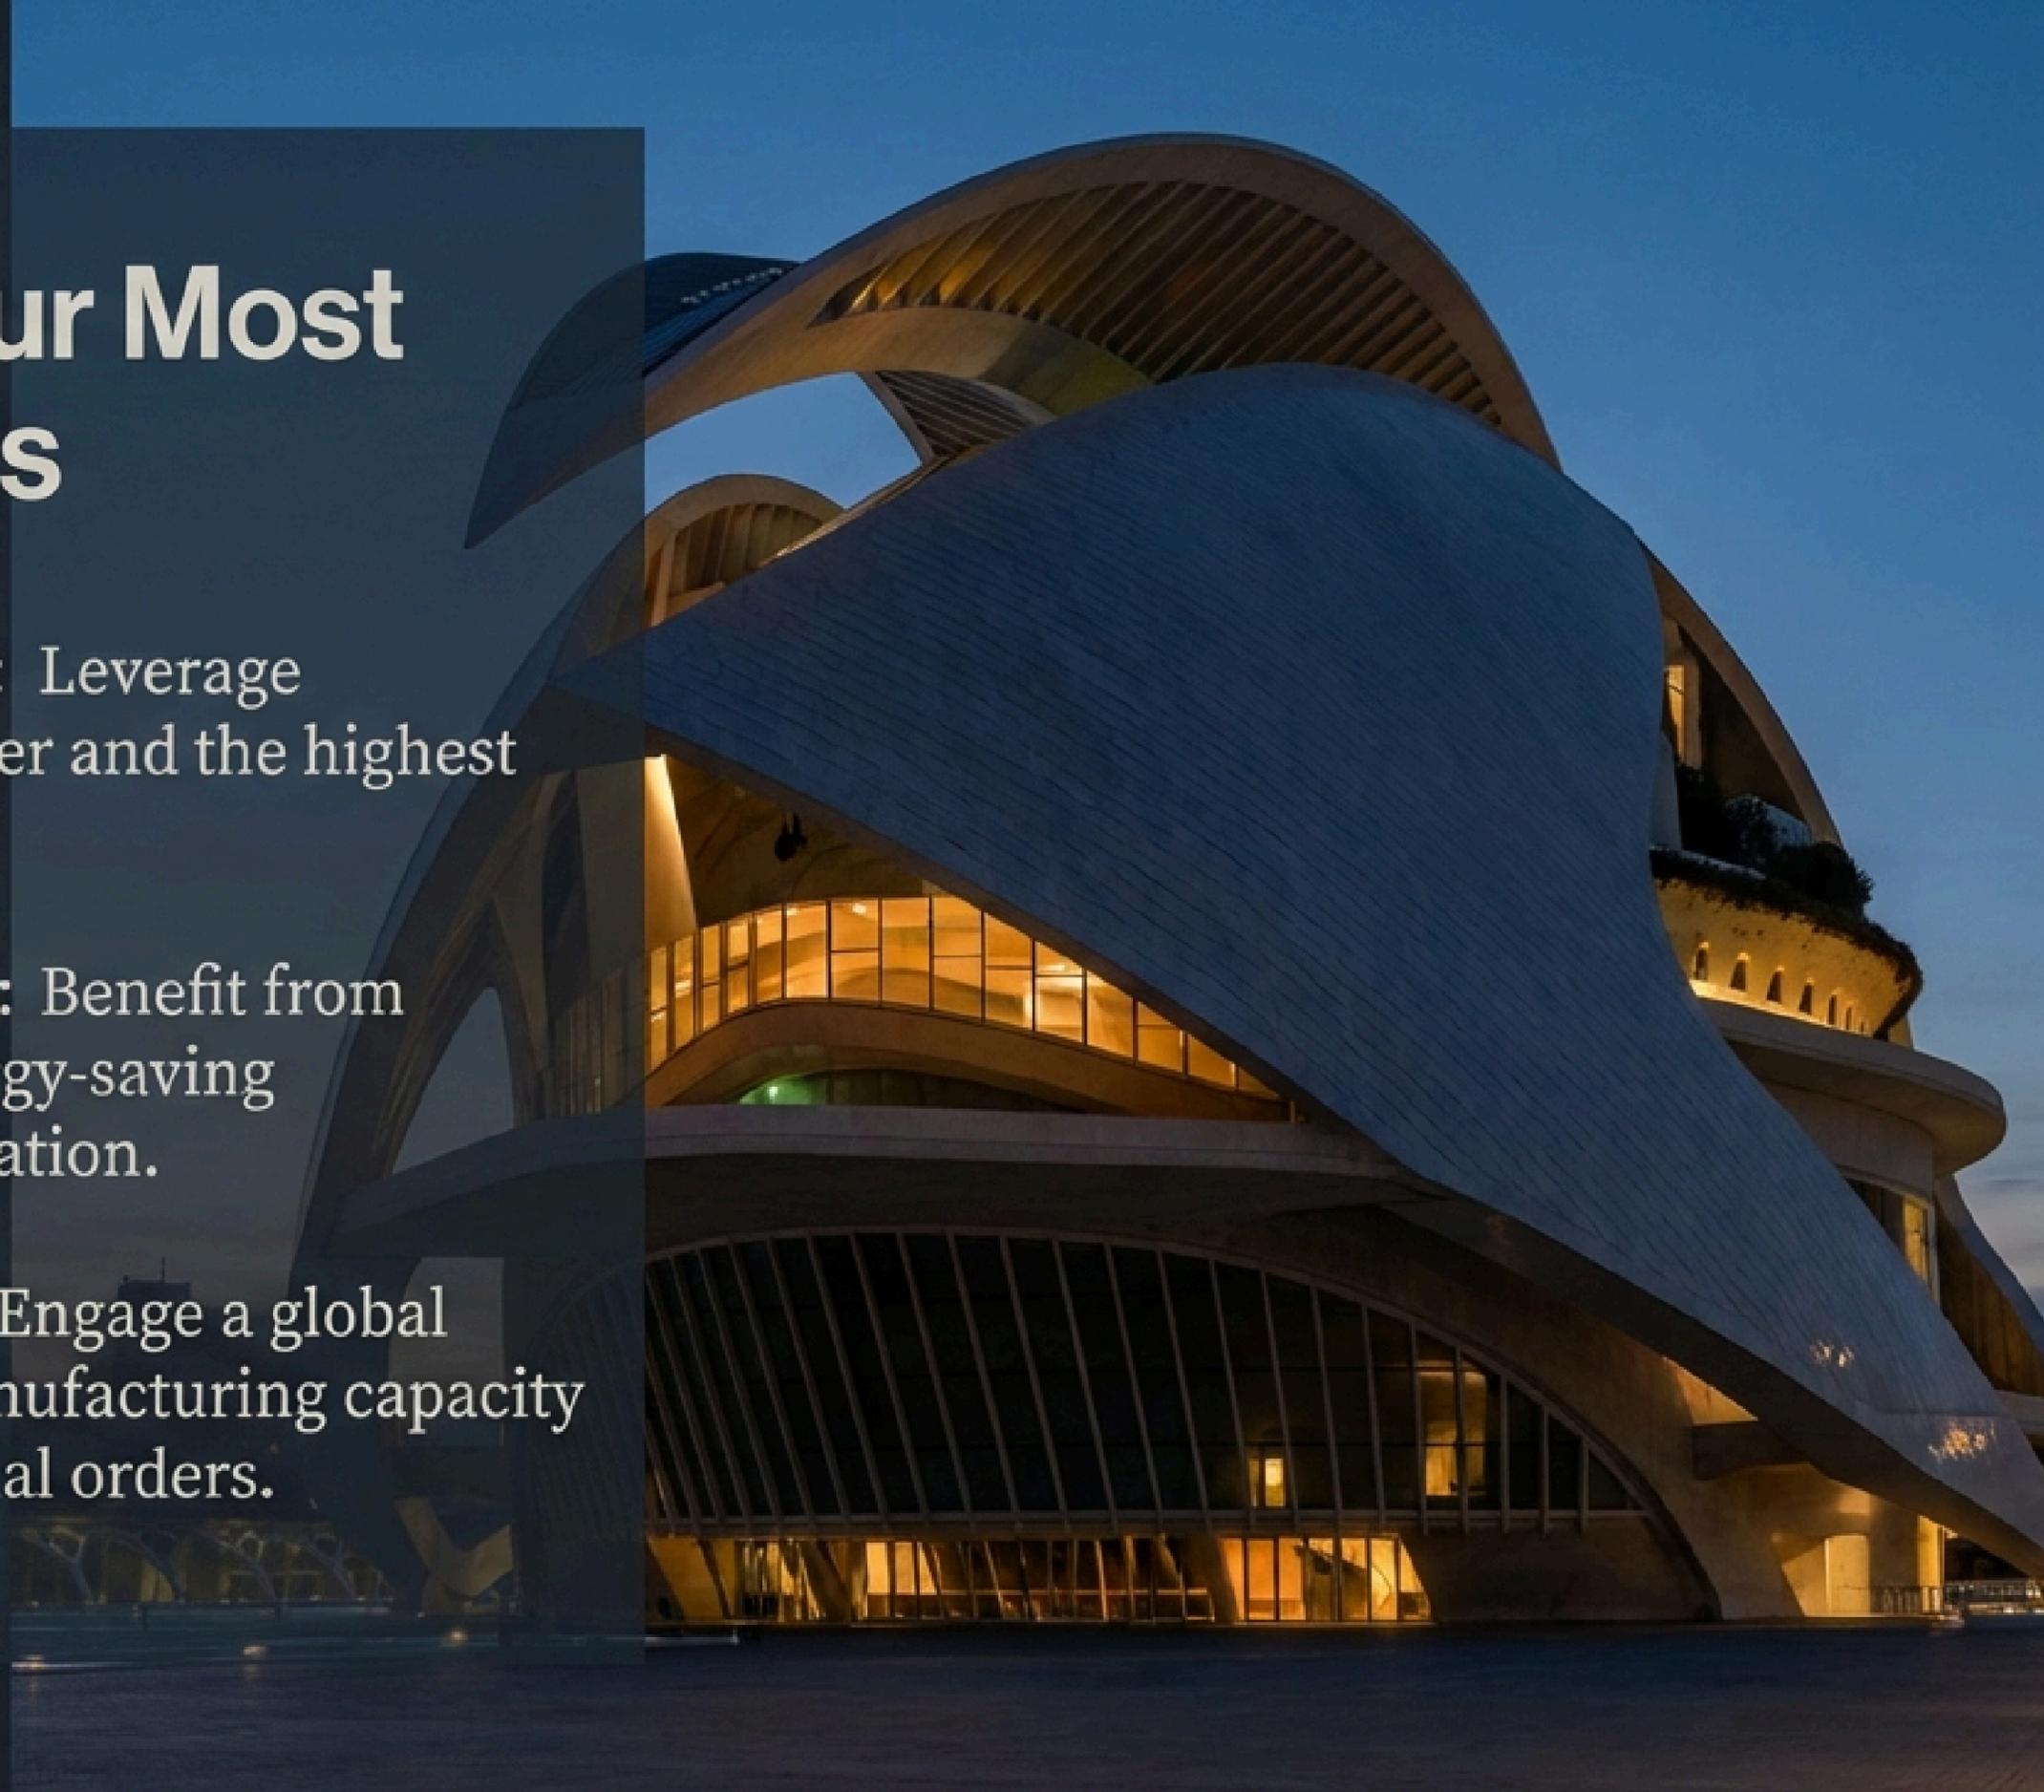

Built on Judgment, Not Volume.

“Sustainable growth in the architectural materials industry comes from **trust, technical credibility, and long-term alignment**, not short-term **sales volume**. I approach every partnership with a long-term perspective.”

— Lim, Jaekeun, President

The Partner for Your Most Ambitious Projects

- ✔ **Access Design-Led Engineering:** Leverage systems built for extreme weather and the highest aesthetic demands.
- ✔ **Integrate Advanced Technology:** Benefit from a focus on smart materials, energy-saving components, and superior insulation.
- ✔ **Rely on a Proven Supply Chain:** Engage a global trading partner with proven manufacturing capacity ready for large-scale international orders.

Let's Build the Future. Together.

Connect with our global trading team to discuss your project specifications and demonstrate how Reliance Fenestration can be your most valuable partner in Asian sourcing.
