FENESTRATION**

The Most Expensive Glass Ever Built

When architecture pushes glass beyond limits

Glass Is Not Just Glass

- Engineering
- Security
- Climate Performance

One World Trade Center
Neue Haas Grotesk Display Bold
3.9 Billion USD Project

- Blast resistant curtain wall
- Laminated security glazing
- Reinforced podium façade

Apple Park

5 Billion USD Campus

- 3,000+ curved glass panels
- Largest curved units ever fabricated

Burj Khalifa

1.2 Million sq ft of glazing

- Desert heat engineered
- Wind load resistant at 828m

The Shard

1.5 Billion GBP Development

- Triple glazed façade
- Non-repetitive custom units

Why So Expensive?

- Custom geometry
- Precision fabrication
- Extreme performance tolerances

The Future of Fenestration

- Smart electrochromic glass
- Photovoltaic integrated façades
- Double-skin climate intelligence

The Skin Often Costs More Than The Skeleton
