

NUTRACYTE™

CanyonMD

Solution for Amniotic Membrane

Reimbursed by Medicare & Most Medicare Advantage Plans
No upfront cost... pay when you get paid

BENEFITS:

1. Application of Amniotic Membrane Allografts have become the preferred way to manage full-thickness cutaneous defects following MOHS surgery.
2. Allografts are a safe alternative to immediate reconstruction in MOHS, surgical wounds and burns. They minimize wound care by providing wound coverage during advanced healing.

FEATURES:

- Seamless process from verifying patient benefits, pre-authorization, ordering membranes, shipping membranes, insurance submission to posting payments.
- Provide guidance with documentation for medical necessity.
- Assist in any appeals or insurance requests.
- Keep providers updated on payer's policy changes.
- Better patient outcomes.
- Digital wound care assessment & measuring technology.
