PRODUCT NUMBER	SIZE	TOTAL UNITS (PER SQCM)
IMP-0202	2x2	4
IMP-0203	2x3	6
IMP-0404	4x4	16
IMP-0406	4x6	24
IMP-0408	4x8	32
IMP-1020	10x20	200
IMP-1520	15x20	300

Dual Layer Impax Membrane is an amniotic membrane allograft derived from a prescreened mother with a planned C-section delivery. Dual Layer Impax Membrane is manufactured in compliance with FDA regulations and AATB guidance. The membrane is minimally processed to preserve the native structure of the tissue, dehydrated, and terminally sterilized. **Dual Layer Impax Membrane is confirmed by the FDA Tissue Reference Group to meet the criteria for regulation solely under Section 361 of the PHS Act as defined in 21 CFR Part 1271.**

General Information

Reimbursement and coverage eligibility for the use of Dual Layer Impax Membrane and associated procedures varies by Medicare and private payers. Coverage policies, prior authorizations, contract terms, billing edits, and site-of-service influence reimbursement.

Place of Service (POS) Codes

POS codes are 2-digit numbers included on health care professional claims to indicate the setting in which a service was provided. The Centers for Medicare and Medicaid Services (CMS) maintain POS codes used throughout the healthcare industry. These codes should be used on professional claims to specify the entity where service(s) were rendered. Check with individual payers for reimbursement policies regarding these codes.

Place of Service Code	Place of Service Location	Place of Service Description
11	Office	Location other than a hospital, skilled nursing facility (SNF), military treatment facility, community health center, State or Local public health clinic, or intermediate care facility (ICF), where the health professional routinely provides health examinations, diagnosis, and treatment of illness or injury on an ambulatory basis.
12	Home	Location, other than a hospital or other facility, where the patient receives care in a private residence.
32	Nursing Facility	A facility which primarily provides to residents skilled nursing care and related services for the rehabilitation of injured, disabled, or sick persons, or, on a regular basis, health-related care services above the level of custodial care to other than individuals with intellectual disabilities.

Dual Layer Impax Membrane is not included on the Medicare Part B Average Sales Price (ASP) Drug Pricing File published quarterly by the Centers for Medicare and Medicaid Services (CMS).

Average Sales Price information is published quarterly by the Centers for Medicare and Medicaid Services (CMS) in the ASP Medicare Part B Drug Pricing File or Not Otherwise Classified (NOC) Pricing File. Providers are encouraged to review the ASP Pricing files posted quarterly by CMS and listed by HCPCS on CMS.gov for updates. Payment allowance limits that are not included in the ASP Medicare Part B Drug Pricing File or Not Otherwise Classified (NOC) Pricing File, are based on the published Wholesale Acquisition Cost (WAC) or invoice pricing. In determining the payment limit based on WAC, the contractors follow the methodology specified in Publication. 100-04, Chapter 17, Drugs and Biologicals, for calculating the Average Wholesale Price (AWP), but substitute WAC for AWP. Providers are encouraged to check with their local MACs for information on established rates. Providers are also encouraged to check with payers to determine if an invoice is required to be submitted with the claim and/or in Box 19 of the CMS-1500 claim form.

CPT® Coding

The Current Procedural Terminology (CPT) code set describes medical, surgical, and diagnostic services and is designed to communicate uniform information about medical services and procedures among physicians, coders, patients, accreditation organizations, and payers for administrative, financial, and analytical purposes. Physicians should report all surgical and medical services performed, and are responsible for determining which CPT® code(s) are appropriate.
