

MOTION HUNTER

SHORT STORY

Motion Hunter is a project of lite version of Ukrainian arm using Moto Crane Ultra technology to shoot most powerful footage in motion. Our expectations was proof local market with rock steady equipment and professional crew. We did few projects like commercial, video clip, shots but our core business is not allowed to us continue in this project of Ukrainian arm.

WHAT IS INSIDE CAR

EQUIPMENT

Motion Hunter have a special custom rig on the roof of car which was developed “as fit” for best rigging solution to slide with base back and forward as you need.
