

Screen Summaries

- The **Energy Source** screen shows ways we interact with and are powered by the environment, and how our body-field is responding to day / night cycles and the big fields of the Earth itself.
- The **Energy Strength** screen shows how much strength is available in the individual fields that make up the unified human body-field. These are the power source of the body-field, making sure it has the fuel to send information through the body-field for proper communication. (Analogy = your computer has power) (ED & ES)
- **The Energy Flow** screen shows the integrity of the body-field's information pathways so that correct communication can take place throughout the body for its everyday operations. (Analogy = your computer has programs to run) (Ei)
- The **Mind Body** screen shows where emotional loops may be imprinted in the body-field by shock, trauma, and stress. These loops can cause chronic health problems. (MB: Ei, ES & MR)
- The **Energetic Immunity** screen shows the body-field's ability to defend and repair itself bioenergetically. The Terrains shown here are believed to underlie the body's chemical immune system. (Analogy = your computer has anti virus software) (ET, ES)
- The **Energetic Stars** screen shows combinations of various information sets designed to support additional bioenergetic processes. (ES)
- The **Energy Rejuvenation / miHealth screen** shows areas of the body-field that can be assisted by the NES miHealth device. (ER & MR)
- The **Environmental** screen shows a variety of environmental factors that may have caused damage to the body-field and/or that the field is unable to correctly deal with. This may or may not mean that these factors are currently or physically in someone's environment.
- The **Nutrition** screen shows a variety of nutrients and whether the body-field is seeing enough of these nutrients or can correctly metabolize them from a bioenergetic perspective. It does not necessarily indicate the physical presence or lack of these nutrients.
- The **Life Journey** screen provides a variety of ways to look at one's internal journey. Items that have been highlighted indicate imbalance or a strong energy around those items to be explored by the client for personal development and holistic healing.
- The **Recommendations** screen shows what Infoceuticals (liquid remedies) and miHealth settings are recommended based on the results of the scan to best support the body-field.
