

How to Download a METAMASK Digital Wallet AND obtain your Seed Phrase

In this guide we'll walk you through setting up MetaMask on your mobile and obtaining your seed phrase.

Your MetaMask wallet is the gateway to storing and managing your digital assets securely. But before we dive in there's one non-negotiable rule you need to understand:

**YOUR SEED PHRASE IS EVERYTHING
PROTECT IT LIKE YOUR LIFE
DEPENDS ON IT
AND GIVE IT TO NOBODY!**

When you create a MetaMask wallet you'll be given a seed phrase - a series of random words that act as the master key to your account. This phrase is the only way to recover your wallet if you lose access to your device. If someone else gets hold of your seed phrase they can drain your wallet in seconds - so NEVER give it to anyone! EVER!

IMPORTANT:

NOBODY will EVER ask for your seed phrase,
if this happens you are on a fake site!

Once you've set up MetaMask and HAND WRITTEN your seed phrase,
you're ready to move forward.

If you already have MetaMask on your mobile phone you can
proceed to the next guide.

1: DOWNLOAD METAMASK APP

⚠ BEWARE: Fake MetaMask Extensions = Stolen Crypto ⚠

There have been cases where people unknowingly download fake versions of MetaMask - scam extensions designed to steal your crypto.

To protect yourself NEVER Google MetaMask. Instead, always go directly through your App Store.

This is the safest and easiest way to ensure you're downloading the authentic MetaMask wallet. One wrong click could cost you everything - stay sharp, stay safe.

2: CREATE A METAMASK WALLET & WRITE DOWN SEED PHRASE

a) Read and agree to the Terms of Use, then click the 'Create a new wallet' button.

b) Choose whether you give MetaMask permission to gather usage and diagnostic data. Press either 'No thanks' or 'I agree'.

c) Set a Password (ensure you record this somewhere safe and private as you will need this to access your account in the future).

d) Click 'Secure my wallet'.

**IT IS CRUCIAL THAT YOU TAKE INTO
ACCOUNT THESE GOLDEN RULES.**

Write it down and store it somewhere safe - offline.

NEVER share it with anyone. Not MetaMask, not customer support - no one!

Avoid storing it digitally (no screenshots, no notes apps, no emails).

If you lose it, your wallet is gone. There's no reset button in crypto.

- e) Click 'Reveal Security Recovery Phrase' (ensure nobody is looking).
- f) Write 12 words down in order and store somewhere safe.
- g) Enter the missing words to verify you have recorded phrase correctly then press 'Confirm'.
- h) Press 'Done'.

YOUR SEED PHRASE = YOUR WALLET'S LIFELINE

Your seed phrase is the only way to recover your wallet if your device is lost, stolen, or compromised. If someone else gets it, they can steal everything - no undo button, no customer support to save you.

WRITE IT DOWN

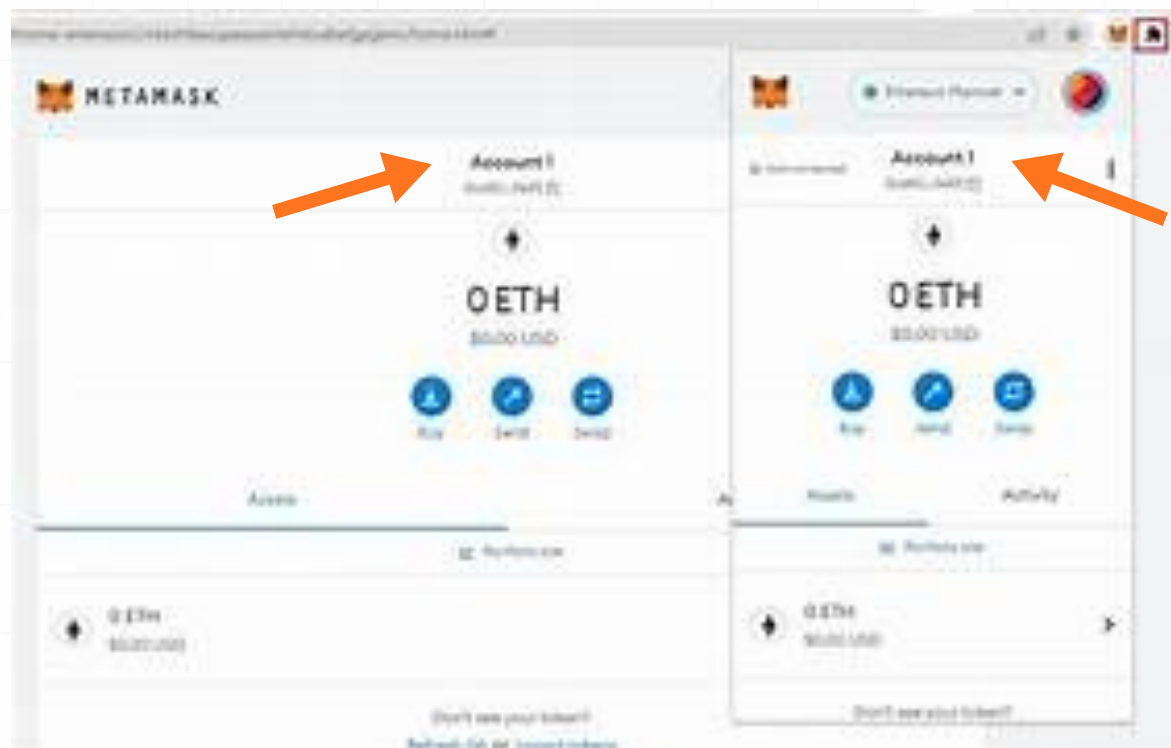

STORE IT SAFELY OFFLINE

NEVER SHARE IT WITH ANYONE.

Your MetaMask account will now open.

We suggest clicking the arrow next to your account in MetaMask, then clicking the three vertical dots to the left and tapping 'Edit account name'.

Rename this account so you can clearly see it is your Bellator account e.g. 'David Bellator'.

**YOU ARE NOW READY TO CONNECT YOUR BELLATOR ACCOUNT
TO YOUR METAMASK WALLET**
