Red Pig Garden Tools
West Linn, OR
Redpigtools.com

Red Pig Tools are the only blacksmiths in the United States specializing in hand-forged garden tools for home gardeners, nurserymen, landscapers, and farmers since 1989. They specialize in making hard-to-find historic tools, one-of-kind custom tools as well as long handled implements, such as hoes, drags and spades. They also repair and re-handle tools. These handcrafted garden tools are stronger, sharper and longer lasting than any others you can buy, and they are made here in Oregon. They will be bringing tools to sell. If there is a specific tool you are looking for, contact them before the meeting, and they will bring it with them.

Contribution Committee presents community recipients.

Don't forget to keep pinching back the buds at the end of those branches on the flowering shrubs you have potted up. Time to add fertilizer as well.
