- Large-format artwork that reads from across a ballroom, theater or arena
- A memorable opening, transition, gala feature or closing moment
- Original finished artwork that can remain with the client or support a fundraiser

ABOUT

GABINO MARTINEZ

Gabino Martinez is a Texas-based live speed painter whose unconventional journey into art is part of what makes his performances unique.

After approximately 25 years working as a self-employed handyman, Gabino discovered an artistic ability later in life without formal art-school training.

He developed his own performance approach using large canvases, music and a custom rotating presentation system. What begins as bold, abstract-looking strokes rapidly develops into a recognizable image and dramatic final reveal.

His work has been presented for corporate, nonprofit, community, sports, fundraising and faith-based audiences throughout Texas and beyond.
