

### **Did Pak take right decision?**

---

Sir, - Apropos of the editorial "Unfortunate decision" (Oct.29), a firm step has been taken by an Indian Organization to stop Pakistan's playing here, though the Government is passive on Pakistan's hostility towards us. Sports should be played only between the countries having friendly relations towards each other. But Pakistan has shown that it is our enemy. When it comes to choice between cricket and saving India, I prefer the latter. Moreover, the Pakistani players don't seem to play fair cricket. Instead, cricket is played as though they are waging a war against India. Cricket should be resumed between the two countries only when the Pakistanis stop illegal supply of arms to the militants in Kashmir and Punjab.
