Benefiting:

THE ROQUE FOUNDATION

Rebecca Roberts is the founder of the Roque Foundation, a nonprofit organization dedicated to honoring the memory of her late mother, Raquel Segovia. Driven by a deep sense of love and gratitude for her mother's legacy, Rebecca created the foundation to provide support for senior citizens and the broader community. Through a variety of initiatives, the Roque Foundation aims to improve the quality of life for older adults, offering resources and programs designed to meet their unique needs. In addition to focusing on seniors, the foundation works to foster a sense of unity and well-being within the community, ensuring that everyone, regardless of age, feels valued and supported. Rebecca's unwavering commitment to her mother's values and her passion for giving back have made the Roque Foundation a vital force for positive change
