

CLF Publishing Collaborative, LLC Standard Publishing Package

Publishing and Editing (up to 150 pages)	\$1249 (if book exceeds 150 pages, client will assume additional editing fees)
ISBN Assignment	\$125
Front Cover Design	\$100 allotment (if additional graphics or designs are required, client will assume additional fees)
Printer Set Up Fees	\$ 125 (Online sales)

Total **\$1599 (does not include book printing)**

Book printing for soft cover books with black and white inside pages generally cost between \$4 and \$6 per book, unless you have a very long book. Full color books (such as children's books) generally cost between \$8 and \$10 per book. Hard cover books usually cost twice as much as soft cover books.

Printing fees depend completely upon the size of the book, the length, whether the book is black and white or whether it is full color.

Included in the package is a one-time \$125 fee. This fee is for the digital feeding of your book, so the printer can feed it into Amazon.com and BarnesandNoble.com. After this fee is paid, to keep your books in the online stores, a fee of \$25 per year will be incurred. This is due each year in the month of the original publishing. (This is not eBook conversion.)

To begin publishing, you must pay at least 50% down (\$800), unless you elect to pay the full amount. The balance of \$799 must be paid no later than 30 days.

***Under special circumstances, I reserve the option to allow a further breakdown in payments.**

****Quotes for ghost writing begin at \$3500 and can be paid over five (5) months.**
