OTHER:

Please visit www.executivegurukul.com

You will see: we have a MEDINET which comprises of Medical Experts. Unnamed experts include lung specialists of world renown in North America. We also have dovetailed genome mapping for advanced analysis.

This is to tell you that while the protocols at our affiliate SPASHRAM RETREAT is SIMPLE, it is based on information from a wide ranging set of experts and this lends a certain amount of sophistication to our protocols.

1. We do not use thermal scanning. This is because of the asymptomatic nature of the CORONA VIURUS

2. We do ensure the following:

Staff uses CARBOLIC with HAND WASHING along with Potassium Permanganate. The scientific studies on the use of these as generally being more efficacious than many sanitizers is documented and available by way of information, should you want it.

The social distancing protocols between strangers (those not habiting together) ;

Mask usage – nasal and mouth coverage

And staff entering rooms for cleaning using disinfectant spray and being outfitted in basic PPE Kit (note foot covers and vizors are not practical in the mountainous terrain.

No other bookings at the resort while you are booked

Gloved service-though this puts a strain on us as we have to work extra hard at disposal of polyurethane based items

[Yogic nasal passage cleaning asanas and lung efficacy and breathing protocols shared

Medical & Health

It is vital that persons with medical problems make them known to us well before trip departure. The trip leader has the right to disqualify anyone at any time during the trip if he or she feels the trip member is physically or mentally incapable or if a trip member's continued participation will jeopardize the individual involved or the group. Refunds are not given under such circumstances.

Hospital facilities are often unavailable and evacuation can be prolonged, difficult, and expensive. Tiger Paws assumes no liability regarding provision of medical care. **Responsibilities of Trip Members**

Trip members have certain responsibilities to host Spashram RiverMountain Retreat and Inder Jit Singh whose estate is known as TigerPaw Camp, Tiger Paw Adventures India Pvt Ltd and to other visitors|staff. You are responsible for understanding the conditions implied and for preparing for your visit by studying the information and supplemental trip information sent to you via email, whats app and verbally as well as what is posted on public sites. At hosts discretion, a visitor may be removed without the right of refund, if the visitor's further presence may be felt by host|staff to be detrimental to the individual him/herself or to others present.

General

Itineraries, Travel conditions, Accommodation: while it is our endeavor to give you an accurate itinerary of the trip, well in advance, it must be remembered that these are subject to revision, for reasons such as weather, natural disasters, Government restrictions, changes in flight or train timings, or other reasons, which may be imposed suddenly, and force majeure beyond our control.

Even routes may have to be changed at the last minute, resulting in adjustments being made to the itinerary. Unexplained changes of programme, diversions, and poor estimates of times and distances are possible especially but not necessarily only in remote environments. **Extra costs that may result in such conditions will have to be accepted and borne by PAX and you are expected to have adequate travel and travel related insurance along with medical and medical evacuation and repatriation insurance coverage to home destination.**

NOTE: TRAVEL AND MEDICAL INSURANCE HIGHLY SUGGESTED, THAT THIS IS MANDATORY FOR ALL TRAVELERS

Road conditions in certain areas may NOT always be good, and to cover the distances involved, hours on the road do tend to become long.

Accommodation: This is a private property and includes the collection and artifacts of the owner. Common sense on what to touch or not, not placing metal objects directly on polished surfaces, handling sliding glass doors in showers or other furniture and furnishings, with the greatest care so as to not face any embarrassment at time of check out which will make for a complicated and unpleasant situation.

Lady/female Travellers: Every effort will be made to keep the trip as a 'woman-friendly' trip at all times **while bearing in mind that one may be entering an environment which is conservative old fashioned, or overly patriarchal.**

Electricity: Breakdowns are not unusual, so flashlights are provided. You may carry -reading headlamps.

Water: Bottled water is available in most places even while the problem of disposing off plastic waste is a challenge we are greatly concerned about. As such we use Himalayan spring water and this is provided for drinking, tooth brushing. Drinking ice will be provided to the extent possible as it has to be brought from Rishikesh. Some is available from our fridge.

Medical: There is a modest first aid kit stored. For medical emergencies the state ambulance is available or a private evacuation to the Jolly Grant Hospital near the Jolly Grant airport. Limited medical facilities are available in places and this must be duly noted before applying for the trip. Please carry insect repellents and sun screen. If you have medical and health conditions, you must inform us well in advance of your date of departure.

Food Extra special attention is always paid to your food, to see that it is hygienically prepared and is palatable for our **Indian** and **Western** clientele. **Alcohol and wines are not available in remote areas and you may carry your own stock.**

BAGGAGE: While your property and goods are safe at all times please remember to not provide unnecessary temptation to staff who are generally much poorer. As such when you leave the room it is better to leave bags zipped and room bolted . We have locks and keys if required but don't wish to burden you with the responsibility of carrying these. A safe is available in the Longhouse.

Walks: Villagers off the highway (Singtali) find it intrusive to have outsiders walk in and hence we discourage this. It is recommended that one either walks on the main road toward the hamlet of Kudiyalla (a four km round trip) or in the direction of Byasi, or cross the bridge halfway to the opposite bank of the river toward Kudiyalla. Crossing the river by raft and onto the other bank is recommended but this needs prior notice.

RELEASE OF RISK

While Inder Jit Singh, Spashram RiverMountain Retreat and **TIGER PAW ADVENTURES (I) Pvt Ltd NEW DELHI INDIA.** endeavor to take - as its past record well testifies, - the most prudent possible safety measures; it is presumed and accepted that every individual visiting the site has accepted **ASSUMPTION OF RISK AND LIABILITY whether signed or not as delivered by email/text/message.**
