ACADEMIC TUTORING

“TAKING THE UNIQUE PERSPECTIVE OF EACH AND EVERY LEARNING STYLE”

Tutoring for students ALL GRADE LEVELS

Appropriate for students with “typical” school challenges in need of support as well as students with more specific educational needs such as learning issues, processing issues, ADHD, Asperger Syndrome, IEP/ Intervention services and more...

Reading, Math, Science, Social Studies, Social Language & Writing
Homework Maintenance
Study Strategies

What makes PERSPECTIVES tutoring different?

Perspectives takes the unique learning style of each student to maximize success. The instructor will gain perspective, support academics, sharpen visualization, increase memory, make relevant connections, and build confidence, trust & understanding

We have found that many school behavior issues can be resolved by helping “fix” the underlying academic deficits and/or academic anxiety issues.

Tutoring can also be an integrated approach to care with psychological services if needed.
