

## **Britain's Third World Parliament**

British Democracy died on the 13th of March 2019 when the UK Parliament handed complete control of the Article 50 "Negotiations" to the EU, by voting to block the WTO option: and that was confirmed on the 14th on March 2019 when they voted for an "Extension" to the Article 50 process.

Today, on the "Ides of March" - Britain is at the mercy of the EU, and on its knees.

No greater treachery against the British people has ever taken place - than the breach of trust between the people and their elected representatives - which has been continually applied during the past 46 years; since the signing of the European Communities Act (1972)

Britain no longer has any bargaining power to obtain any acceptable trade deal with the EU - even if the WA&PD is ratified - in fact the UK politicians have rendered Britain defenceless in the face of those in the EU who will seek to treat the UK like a stray dog begging for food - while the EU knows full well that the British Parliament, and the entire establishment, in fact, has their backing for such action.

Of course, we have been in this very same position since 1973 when an earlier Conservative government took the UK into the EEC with the backing of the Labour Party - only now, ironically, with the impetuous of May's (Merkel's) ticking clock - those who side with the EU against the UK were forced to break cover and reveal their true allegiances.

None more so than JC, when he "ordered" his party to abstain from the vote to call for a 2nd Referendum yesterday - because "it wasn't the right time" to make that call - a Freudian slip perhaps; but it is clear that the establishment "plot" is to use the new found Article 50 "Extension" to bring about exactly that - but he let the "cat out of the bag".

Not really though, we all know what they are up to - bringing about a 2nd EU Referendum.

## **Cameron's Faux Pas**

We can thank David Cameron, and, of course, Merkel and Juncker, for allowing the UK to have a Referendum on the EU - we were never given any say on actually joining the EEC (EU) in 1972 nor Referendums on any of the subsequent EU Treaties. Most of all we should thank them, because without it, we would not have been given a window to allow us to peer into the "dark" hearts of the so-called "ruling class".

We saw their treachery on the 13th and 14th of March 2019, and for that they will never be forgiven - nor will we ever forget.

The title "Britain's Third World Parliament" is actually an insult to other "Third World Parliaments" because ours is much worse. It is a "Puppet" Parliament and Establishment, running the UK on behalf of the EU.

No-one should be in any doubt that, the UK is an "Occupied Country", with a "Vichy" style Parliament.
