NORTHSHORE PREP REPORT – RECRUITING

Kameron Casnave has been a force Northlake Christian over the last four years. His consistency and growth during that time, both mentally and physically is a large part of his continued success.

Strengths:

Casnave is a downhill runner with the ability to put his foot in the ground and hit holes hard. He excels in a zone blocking scheme allowing him to use his vision and size to hit holes hard. This year, he has also outrun opponents for long touchdown runs. His ability to move laterally at 220 pounds is impressive. His durability and consistency throughout his high school career stands out.

Quote from a Coach:

Casnave has been a force for years. We always knew we would get a steady dose of him, but couldn't always defend it. Over the years, his body has changed and he's become an excellent all-around back. His ability to pull away and catch the ball out of the backfield has only made it harder to defend him. Additionally, the small amount of plays I saw him on defense, he was impressive there as well.
