## INNOVATIVE SOLUTIONS ACROSS THE GENERATIONS

DESIGN, QUALITY, COMFORT

KESSEBÖHMER

**FOR GENERATIONS, THE NAME KESSEBÖHMER HAS STOOD FOR INNOVATIVE SOLUTIONS – A STRONG BLEND OF DESIGN, FUNCTION AND QUALITY.** Today Kesseböhmer remains a successful owner-managed company group.

Our core competence is in metal processing. We work with wire, sheet metal and tubing. Products are finished in our in-house electroplating and powder-coating facilities. Our strong customer orientation has helped us to build and maintain our position as the leading supplier of functional fittings for kitchen units.

Our well-designed products help end-users to keep storage space tidy and check all the contents at a glance. They help to make best use of space and make kitchen work more efficient. These benefits are strong selling points for kitchens. In addition, kitchen manufacturers and kitchen fitters profit from the ultra-easy assembly and adjustment of our pull-outs and other fittings. More and more of our products use snap-on connections, so that they can be assembled without tools. The result is time savings and quality gains.

From the initial idea to final shipment, every step of the process is in-house – including developing and engineering production machinery and tooling. This is why we're so good at turning innovative ideas into products – quickly and successfully.

**Fascinating functionality. Impressive design. Quality that sets standards.**

## 2 STORAGE SHELF UNITS BEHIND ONE DOOR: TANDEM

The heights of the cabinet and door shelf units are adjusted independently of each other

The shelves are simply clipped on

The height of all shelf units can be repeatedly adjusted

Everything is set in motion with just one hand. Looks fascinating and keeps everything neat and clear!

When opened, the cabinet shelf unit automatically moves forward

TANDEM & fridge side-by-side: A brilliant idea, two cabinets – with panorama view!

TANDEM and fridge are set out according to the same principle: door & cabinet shelf units complement each other perfectly. An arrangement that has proven itself a million times over.

## The FREElift family

IN A CLASS OF ITS OWN

 KESSEBÖHMER

ADVANCED, SLIM, PRECISE. OUR MOST ADVANCED LIFTER FAMILY ON THE MARKET MEETS ALL THE CRITERIA FOR LOOKS AND FUNCTIONALITY.

Aesthetics is an emotional criterion that even technical products must achieve today. They have to perform perfectly and look beautiful too. The slim and elegant looks of the different members of the FREElift family underline the obvious advantages of Kesseböhmer's high-precision technology.

The FREElift family delivers silky smooth opening and closing action for wall units with a wide range of flap sizes and weights. The easy and harmonious movements are noiseless, soft and effortless – these outstanding characteristics represent striking user benefits.

Innovative and special about these fittings is the efficient and effortless operation. Not only in the kitchen, but also in bathrooms, bedrooms and living areas. The slim, low-profile design of all these lifters means that they take up very little space in the wall units, leaving as much space as possible for storage and enabling easy user access to the contents.

Folding, lifting and gliding in harmonious opening and closing movements. Effortless. A flowing movement experience.

# FUNCTIONAL INSERTS CHOOSE YOUR COMBINATION

Minimalist – elegant with a hint of luxury. Organization meets lifestyle. No mess and confusion; instead elements are positioned neatly side by side. And they're more flexible to use than ever before – with ample compartments for cutlery and also purpose-designed inserts for spices, coffee capsules and anything else you want to keep close to hand. Beautiful designs in fine wood.
