Letter from the President

Just back from a family vacation to the Outer Banks of North Carolina. Sunday was a beautiful, sunny day with pleasant temperatures and gentle breezes—a perfect day for a wild horse safari. Bouncing along the sand dunes in the back of a Hummer beyond the end of paved roads is a good way to look for wild horses (or to send one off seeking a chiropractor).

As usual, we managed to schedule a visit at the same time that hurricane Maria was passing by offshore in a huff (and puff). Luckily, no significant storm damage or rains, just gusty winds. Trips to the beach were limited by high surf, rip tides, blowing seafoam, and risk of being sandblasted. (Good thing that the sun wasn't out or our shadows would have blown loose!)

A few showers fell on Tuesday and Wednesday, but not enough to drown you if you looked up. Hatteras and Ocracoke Islands were under mandatory evacuation orders for non-residents from Monday until 1pm Thursday, when the bridge from the north reopened.

You Are Cordially Invited....

Letter from the President

Spring is finally here again. Yes, I know that we had snow on Easter. Just Mother Nature’s way of saying “April Fools!” Daffodils are in bloom, flower buds are appearing on the Bradford pear escapees, honeysuckle leaves are popping out. Well, one out of three of those is a good thing.

Lots of fun activities coming up in April. Be sure to join us at the Annual Meeting next week. Denise Quinn, VP and Plant Manager at MillerCoors will present the keynote talk about “Environmental Sustainability, Brewing with Zero Waste”.

Kites N MPX will take advantage of April zephyrs to float a wide variety of kites aloft. The next day, join us at Rentschler Forest MetroPark for a spring wildflower walk. Later in the month, shake things up at a Richter Day Celebration, and whistle a happy tune during the Big Week of Birding.

See you in the parks,
Bill Walker, President FOMPBC

Land Stewardship is welcoming bats of Ohio to our parks this summer by installing eight new bat houses (four boxes at Governor Bebb MetroPark and four at Forest Run MetroPark - Timberman Ridge). Bats are considered a "keystone species", meaning their role has great impacts on the ecosystems they live in. Some of the roles bats play in our world are insect consumption, seed dispersal, and pollination.

All Ohio bats are insectivores, an insect eating animal. This insect population suppression is good for a summer night hike but also for our farming industry. Bat Conservation International scientists predict that the reduction of pest insects by bats values over $3.7 billion in the United States because they lower a farmer’s crop damage by pest insects and reduced pesticide use.

Even with these benefits, bats have been in jeopardy. Habitat loss, spread of White-Nose Syndrome, and a lack of education on bats all pose a threat to this animal. But we all can play a role in conserving this animal.

MetroParks is meeting this need by reforesting with trees bats prefer and installing bat houses at our parks. If you are interested in installing a bat house at your home, consider the following guidelines for choosing a good bat home location:

- Bat house should receive 6-8 hours of direct sunlight in the summer months.
- Bat houses on a post should face:
  - One box - Southeast
  - Two boxes - one should face North, the other South.
- Box should be mounted at least 12 feet above the ground.
- Box should be at least 20-25 feet from nearest tree branches and within 1030 yards from woodland area.
- Box should be within a quarter mile of water.

If you meet these guidelines, check out http://wiatri.net/inventory/bats/Resources/BuildingBatHouses.pdf for building your own bat house.
