Letter from the President

Just back from a family vacation to the Outer Banks of North Carolina. Sunday was a beautiful, sunny day with pleasant temperatures and gentle breezes – a perfect day for a wild horse safari. Bouncing along the sand dunes in the back of a Hummer beyond the end of paved roads is a good way to look for wild horses (or to send one off seeking a chiropractor).

As usual, we managed to schedule a visit at the same time that hurricane Maria was passing by offshore in a huff (and puff). Luckily, no significant storm damage or rains, just gusty winds. Trips to the beach were limited by high surf, rip tides, blowing seafoam, and risk of being sandblasted. (Good thing that the sun wasn't out or our shadows would have blown loose!) A few showers fell on Tuesday and Wednesday, but not enough to drown you if you looked up. Hatteras and Ocracoke Islands were under mandatory evacuation orders for non-residents from Monday until 1 pm Thursday, when the bridge from the north reopened.

Letter from the President
Chuck Holliday 1950-2018

I first met Chuck Holliday in 2010, after responding to an ad in The Pulse seeking volunteers to help lead nature walks in the parks. The first walk, in April of that year, was a wildflower hike led by Bob Henn. After that, each new hike showed me more about how extensive was Chuck’s knowledge about nature. Whether insects, butterflies, dragonflies, wildflowers, trees, reptiles, or birds, Chuck was happy to share his expertise.

Chuck drew a wide audience of hikers ranging from kids to senior citizens. He went out of his way to make sure that each age group found something of interest. He provided butterfly nets and magnifying glasses to involve kids in collecting specimens, while teaching adults about host plants for caterpillars and nectar sources for insects and birds. By scheduling walks at different times of the year, Chuck showed what flowers to expect by season and how to identify trees both with and without leaves.

The other side of Chuck was the organization of work days to help maintain the parks. Planting of trees, spreading of mulch, spreading prairie wildflowers, and grooming trails were frequent work day targets. True friends of Chuck know that combat against invasive species was one of his hot button issues. Honeysuckle, garlic mustard, lesser celandine, hybrid pear, teasel, and phragmites, were enough to cause Chuck to foam at the mouth. The best memorial that we can offer in Chuck’s memory is to continue his battle against invaders.

Chuck was a long-time member of the Liberty Twp parks committee. He was one of the founding fathers of the Friends of MetroParks of Butler County and served as vice president and president of that group. Perhaps his greatest contribution to these groups was recruitment of new board members. His many friends in school groups, scout troops, and nature organizations were drawn upon to help make sure that local and regional parks receive the support they need.

Of all Chuck’s abilities, his skills as a bird watcher stood out. When warblers migrated through the area in the spring and fall he could identify rare species by their song, their movement at the top of a tree, or glimpses through gaps in the leaves. During the Christmas bird count each year, he frequently demonstrated the ability to count the number of birds in large flocks. I will admit that I sometimes became suspicious about the accuracy of these counts, especially when he would casually mention that the fourth bird from the left in the last row had blue eyes. Each time that I joined Chuck for these counts it snowed the night before and began to drizzle the morning of the count. Nothing quite so lovely as peering up into a tree only to have a branch full of wet snow hit you full in the face.

Good times and bad, Chuck could always be counted on to help make sure the job got done. He was my friend, and I’ll miss him.

See you in the parks,
Bill Walker, President FOMPBC

June Volunteer Opportunities

Butterfly Garden Weeding
When: May through September
Where: Forest Run MetroPark, Timberman Ridge Area
1976 Timberman Road, Hamilton OH 45013
What: A volunteer is needed to help care for the butterfly garden at the Timberman Ridge Area of Forest Run MetroPark. The butterfly garden volunteer will be responsible for removing weeds from the garden every 1-2 weeks and watering during dry periods, as needed. Strong skills in native prairie plant identification is required in order to successfully differentiate weeds from desired pollinator plants. This is an ongoing opportunity that would require a commitment from May-September.

Adopt-A-Prairie
When: Flexible; Ongoing
Where: Forest Run MetroPark – Timberman Ridge Area
1976 Timberman Road Hamilton, OH 45013
What: The prairies at MetroParks offer beautiful color displays for us during the summer and provide much needed resources for pollinators, and other wildlife. However, the prairies, like other natural areas, are threatened by non-native invasive plants and noxious weeds. These undesired plants create competition for the native forbs and grasses that make up the prairies and grasslands. Adopt-A-Prairie volunteers will be assigned a prairie, or a section of a prairie, which they will monitor for invasive plants. The volunteer will walk their assigned area and remove the invasive plants with hand tools. This volunteer opportunity requires walking through thick grass and brush where ticks, poison ivy, and other irritants found in nature may be encountered. This is an ongoing opportunity that would require the volunteer to monitor their assigned location from June-September.
