Text-to-Give

Detailed Instructions by Chamaigne Sharette

Short Version:

Text the word "give" to 801-921-6697 and follow the prompts. It's safe, reliable and you'll receive a receipt in seconds.

Detailed Version:

On your smartphone, open the texting app and start a new text message. (Look for a button with a plus sign, or "start chat").

For the recipient, type in 801-921-6697.

Then for the message, type, the word "give". (The message must contain only that one word, and shouldn't include the quotation marks.)

Send the message.

You'll receive an automated message back, prompting you to set up a giving account. It will ask for your name and payment method, how much you want to give, and if this is a one-time gift or a recurring gift.

When you're all done, you'll receive a confirmation message.

This is a safe and secure way of giving, and very convenient! Next time all you have to do is type in the amount you want to give and it's done!

You will always get a "thank you" message which gives you the opportunity to fix it if you entered the wrong amount.

Extra Hint: If you add "Text to Give" as a "contact" on your phone, you can just search for "Text to Give" in your text messaging app. That way, you'll have no trouble finding the text "conversation" again when you're ready to text your next gift.
